Travelling through

Oasis offers so much more than a selection of furniture. Indeed, the company aims to propose a complete and coordinated interior design, inspired by an idea: the beauty of 1900. Nevertheless Oasis also looks at the decades of great Italian design and architecture to capture the secret of blending different raw materials in a new, unique and universal design.

Oasis, a story in time

1908

Floriano Quaia opens his first carpentry workshop: a small studio where furniture is made with the aim of lasting a lifetime.

1945

Bernardo Quaia, son of Floriano, sets down the foundations of a company where the first pieces of decorative furniture would later be developed.

1972

Francesco, Bernardo's son, builds a factory and creates - using his surname - an actual brand. Together with his brother Floriano, he sets up Arredamenti Quaia.

1980

Arredamenti Quaia participates in the Salone del Mobile, Milan for the very first time. The accompanying burst of innovation marks a turning point for the company which sets its sights on ever broader horizons.

1984

During the flurry of the Eighties, Francesco Quaia establishes the Oasis brand, branching out into the production of bathroom furniture which thereafter becomes part of the company offer.

2012

The Home line is completely revised and relaunched with the aim of offering, under the Oasis label, a complete and coordinated luxury interiors package inspired by the language of cosmopolitan and contemporary style.

The New Millennium

At the turn of the Millennium, an impetus of change, of fresh new ideas, sweeps through the company in the form of the next generation, Francesco's three children: Francesca, Federica and Lorenzo.

Nowadays

The company is a century-old family business characterised by courage, tradition and a strong identity. It has market presence in more than 25 countries, the main ones being: Russia, Ukraine, the United Kingdom, Germany, France, Switzerland, Belgium and the United States. The Oasis production portfolio includes a wide range of furniture collections for the Home, the Bathroom and the Contract industry for the construction of projects for both residential and professional purposes.

2013

The year sees monobrand flagship showrooms opening in both London and Hong Kong.

The future of italian know-how.

There is only one area of Italy where the air can blow in from foreign lands, that place is Friuli. And along with that wind comes history, style and certain ways of thinking. It is here that the story of Oasis began, the result of a refined and eclectic merging of different cultures, civilisations, languages and cuisines often referred to around the world as "Italian style".

Francesca Quaia

The eldest, Francesca, is the first to work alongside her father in the business. By assuming responsibility in 2001 for the commercial direction of the company, is pivotal in steering it along the road to internationalisation.

Federica Quaia

Second daughter Federica, having specialised in the worldwide branding of luxury goods, takes over all aspects of image and communication within the company in 2006, thus assuming marketing and artistic control.

Lorenzo Quaia

Third-born Lorenzo completes the transition to the fourth generation in 2008. Specialising in project research and development as well as highly technical products, he becomes head of the technical production division.
