DANISH DESIGN

[DANSANI.CO.UK](https://dansani.co.uk)

Create your personal space

When choosing Dansani you will get

- Assurance in selecting a bathroom expert with more than 35 years of experience
- Danish Design and solid craftsmanship manufactured in Denmark
- LED lighting of high quality, because we prioritise excellence and precision in our lighting
- Sustainable products in order to protect and care for our environment
- Easy and fast delivery all year round

Danish design is our cultural heritage

Danish design is more than beautiful shapes. It is a philosophy that embraces functionality, simplicity, naturalness and an aesthetically based approach to life. It is a living foundation which you can develop and shape based on your own personality.

The basis for our solutions is the life that is lived around our designs. Our products must allow you the space and freedom to create the surroundings that you desire.

We see the bathroom as an important room in all homes, and the design must be in line with other interiors of that home. Therefore, our most important task is to create solutions that open the way for you to make life - with all aspects involved - easier and more beautiful, also more meaningful.

Meet
the new

YOU

A world of custom solutions

The new Dansani YOU is designed to fit around you and your life, not the other way round. We make it easy for you to create your very own look, without having to worry about the quality, functionality or craftsmanship. We have it all under control, no matter who you are or what you choose.

In fact it has never been easier to tailor a smart, elegant bathroom based precisely on who you are. The new Dansani YOU lets you create your personal dream bathroom – with emphasis on your dream. Choose one of three styles: Vintage, Urban or Classic, or you can mix and match between them to create your own personal favourite.

Let your imagination run free, and create your personal space.

Classic

Vintage

Urban

Classic

Timeless elegance

The classic qualities of our Danish design tradition shine through every single detail, and together create an elegantly timeless look. The front panels are inset between the sides of the cabinets, highlighting the visual elegance and forming an elegant frame around the drawers. The support legs are placed flush with the frame, highlighting it even more. You can reinforce the impression with your own personal colour combination, and choose between plain or framed fronts.

Meet Sofia
and the new

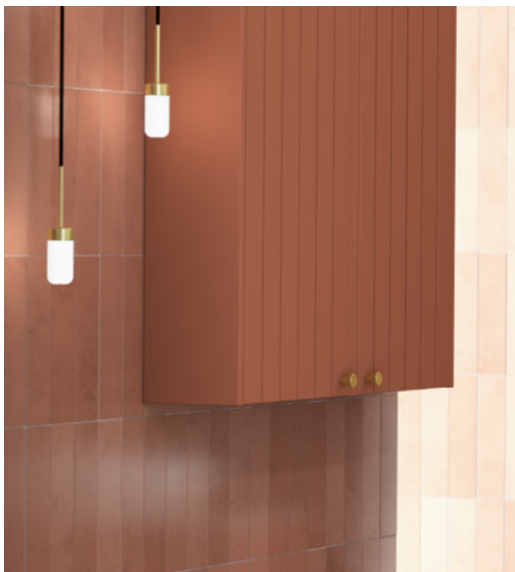

YOU

DANISH
DESIGN

I love classic design, I love yoga, I love good food, I love my garden, I love my home. In fact, I'm old enough to know exactly what I like. And I'm looking for maximum quality in all aspects of my life. The things I buy have to be timeless with regards to both quality and design. Nothing less will do.

Vintage

Romantic, functional retro

A light, organic style, in its very essence inviting you to find a personal, decorative furnishing style. The cabinets are clearly and attractively defined by the curved front panels, which are decoratively framed by the sides of the cabinet. The fronts are available in either plain or grooved versions, and you can create your own personal retro look by mixing and matching with flea market finds and personal touches.

Meet Caroline
and the new

YOU

DANISH
DESIGN

I am a single, outgoing, and professional woman and home is where my heart is. Everything in my home reflects who I am and tells a story. My taste is an eclectic, yet feminine mix of new and old – from hyper modern design to flea market finds.

Urban

Modular minimalism

Clean and strong, perfectly plain. No superfluous details disturbing the unbroken, colour-matched surfaces and stringent lines. The front panels are placed on the outside and create a calm expression with firm lines and clean surfaces. At the same time, the elegant rounded edges are pleasant to touch. Form is linked to function in this outstanding Danish design, with loving attention to every detail, top quality materials and perfect finish.

Simplicity has always appealed to me. When I get home, I like to lean back and not worry about irrelevant stuff. That is why quality materials, functional design, clean lines, black, white, and natural warm tones all make sense to me. They allow me to be me.

The fundamental essence is good design

Functionality, simplicity and naturalness rooted in an aesthetic approach to life.
Practical, easy and beautiful. That is the essence of good design - if you ask us.
Therefore, the starting point for our designers is quite naturally the life that is lived with and around
the furniture, and our furniture has been created to allow space for development and freedom.
To allow space for YOU to create the perfect setting. To allow space for you and yours.

Dansani makes it easy and inspiring to decorate with beautiful, well thought out and functional solutions - all based on solid workmanship, sustainability and with deep roots in the Danish design tradition.

'Perfect furniture does not settle for simply solving a functional task - it is thrilling and inspiring at the same time. It invites you to think in a new and different way. It steps up daily living, and partners with you in every way. That is exactly how we thought of and designed Dansani YOU.'

The YOU Design Team, Dansani

Did you know that

- good lighting increases your quality of life
- putting on make-up and shaving become much easier with good lighting
- correct, adjustable lighting disturbs your natural circadian rhythm as little as possible

CE

Well-being and harmony with true lighting

Light plays a vital role when it comes to our health and well-being, and it has been scientifically proven that good lighting increases our quality of life. Therefore, we ought to be critical and quality-conscious when we select lighting for our homes. Because artificial lighting is not always good lighting.

A comfortable colour temperature and a high level of colour representation

Basically, it is all about finding a comfortable light, as close as possible to sunlight, so that the colours of materials and people are reproduced in a varied and natural way.

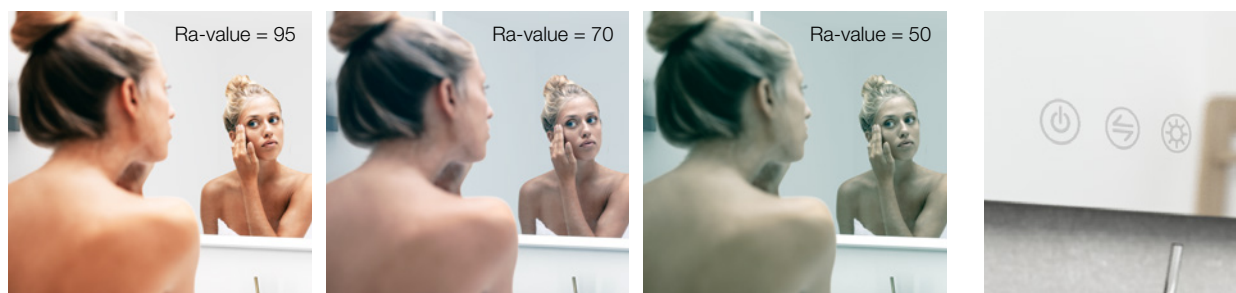

At Dansani, we focus on offering our customers well-being and contributing to a good indoor environment, and that is why we deliver products with LED lighting of the highest possible quality. If you choose a mirror solution with light adjustment function, you can adjust the lighting in your bathroom according to your needs and circadian rhythm. The mirrors and mirror cabinets from Dansani have an integrated touch panel with an on-/off-function, a dimming function as well as light adjustment function ranging from warm and golden to the coldest white light. With a Ra value of more than 90, you get a very high level of colour representation for all colours in the range. Amongst other things, this means that red colours and skin tones are reproduced correctly which is important when you apply your makeup, for example.

Homogeneous light

If you buy your lighting from Dansani, you do not need to worry about quality and colours of the light. Our LED light fittings are sorted applying high quality levels, that ensures that all LEDs in your lamps emit a homogeneous light and offer the same correct colour reproduction, no matter the lamp model and position.

Illuminate the entire room

With the lighting collections from Dansani, you can create unique coherence throughout the bathroom interior design by using ceiling spots, wall lamps and pendant lights that match the light fittings in your mirror solution. All our lamps are designed for the bathroom and they are approved for use in wet rooms in accordance with the standard IP44.

On the photos above, you can clearly see the difference in colour reproduction with a Ra value of 95, 70 and 50, respectively.

The touch panel allows you to choose the light colour and intensity

Classic

Timeless elegance

The classic principles from our Danish design tradition are apparent in each and every detail and create an elegant, timeless look.

Designed for any room size

Dansani YOU's inspiring universe unfolds equally beautifully in small and large rooms. You can maximise the use of space with compact elements in the appropriate measurements or spread out with a lavish interior. The wide product range of bathroom furniture and accessories gives you a free hand to renovate your bathroom with the perfect result. Depending on your needs and floor space, you may install your furniture on the wall and support the look with elegant legs. Let your imagination roam free. - Classic is ready to play along with your bright ideas and to open up new angles and solutions.

Comfortable and efficient daily living

A good design unites the beauty of uncluttered lines and the comfort of carefully thought out functions. To mention an example, the window sill is used to form a wonderful, light sitting area. The open cabinets fully utilise the floor-to-ceiling height and provide easy access to daily essentials, for example towels that can quickly be hung up to dry on the stylish, conveniently placed heated towel rail.

These are all details which you will enjoy
- each and every day.

Open the drawer and see the whole picture

When you open the drawers, you will see well-arranged, light and inviting divisions with room for everything. The drawers have practical dividers, and if you choose lighting in your drawers, you will have an even better overview. The drawers are fully extendable so that you can see all of their contents, and soft close action ensures that they close gently.

Interior lighting in your wall and tall cabinets create exquisite lighting effects

Exquisite through and through

The consistency of the colours and surfaces creates the general feel of the room. Classic allows you to create that special look and enhance unity, for example by using cabinet gables that match the floor and walls while the dashing contrast colour of the front stands out.

The standard colours are white matt and brown oak or natural oak, but you are free to choose the exact colour that you want.

Oblique and sloping angles

Sloping walls are not a problem but rather a fun and exciting opportunity. The flexibility of the concept enables you to fully utilise the various surfaces and angles of the room and to create, customised design solutions that utilise space to the fullest. We may have to think in unconventional ways, but with so many options, the challenge never remains unsolved.

Mix & match to get your very own YOU

The bathroom is one of the core areas in your home. It is an essential part of your home for all hours of the day, and is part of some of your most personal as well as relaxing moments. Your bathroom therefore has to be shaped according to your dreams and your life - not the other way around.

With YOU, you won't have to compromise on anything. The open and flexible design concept makes it easy for you to make all aspects fit together - from function to finances. There are no weak links - all you have to do is make your decision based on what your heart is telling you, trust your intuition and enjoy an entirely unique result. The three styles - Classic, Vintage and Urban - provide a strong platform to create the exact look that you want - the more you play with the possibilities, the more stylish solutions you will find.

There are no rules - anything goes.

STEP 1

Solid and practical

Modern basins appeal to all senses. The basins are available in many widths and depths, matching large as well as small bathrooms. You may also choose models in glass, solid surface or genuine sanitary porcelain.

Menuet / Genuine sanitary porcelain
Modern classic in a timeless design. Available in several sizes and in particular Micro and Mini are well-suited for smaller bathrooms

Arc / Genuine sanitary porcelain
The soft shapes of the curved front edge of the basin and the rounded shape of the bowl radiate a friendly and accommodating design.

Edge / Genuine sanitary porcelain
The shape is classic in a very simple and angular look with no distracting elements. The basin is made of thin porcelain with a polished surface appearance. The basin has a generous bowl and is therefore also practical.

Minore / Solid surface
The basin has a slim, light design and a matt white finish. The deep bowl has rounded corners. Available in two depths, where Mini is perfect for smaller bathrooms or shower rooms. The basin can be custom-made to your exact size to suit your bathroom incorporating 1 or 2 bowls.

Largo / Glass
Modern, sophisticated design where the soft shapes and glass material make it very easy to clean. Suitable material for a bathroom. The matt grey colour radiates elegance together with the slim look and soft basin design.

Sculptural, countertop basins

Incredibly beautiful - and a countertop basin provides a host of combination options. The oval and square basins can be mounted on various types of worktops and can be combined with wall-mounted or worktop brassware.

Marcato / Solid surface

Countertop, square basin in a distinct and light design. The square basin is placed on a solid surface worktop.

Sonate / Solid surface

Countertop, oval basin with thin edges and a touch of romance. The oval basin is placed on a solid surface worktop and fits wall-hung or worktop brassware.

Sonate / Marble look

An oval design with a touch of romance. The distinctively thin outer edges make up a strong contrast to the soft inner shape. Positioned on a tabletop with a romantic marble look, the basin fits to wall-hung or standard fixtures.

Sanitary porcelain / Soft, rounded edges with a glossy and extra robust surface

Sanitary porcelain is a strong, ceramic material that features a soft and rounded design on all edges, both in the basin and on the tabletop. The surface is hard, smooth and glossy, and the rounded edges make it very easy to clean. Basins made of sanitary porcelain require only a minimal amount of maintenance - even after many years of use. Don't use abrasive cleaning materials on this basin.

Glass / Innovative material with a matt surface and an aesthetic, thin design

Glass basins are made of a strong and cleaning-friendly glass material that makes them particularly suitable for everyday use in the bathroom. Along with the thin design, the matt material surface creates an aesthetic, minimalist and velvety-soft look. The glass basin is easy to clean. Use standard cleaning materials for the bathroom and avoid abrasive materials.

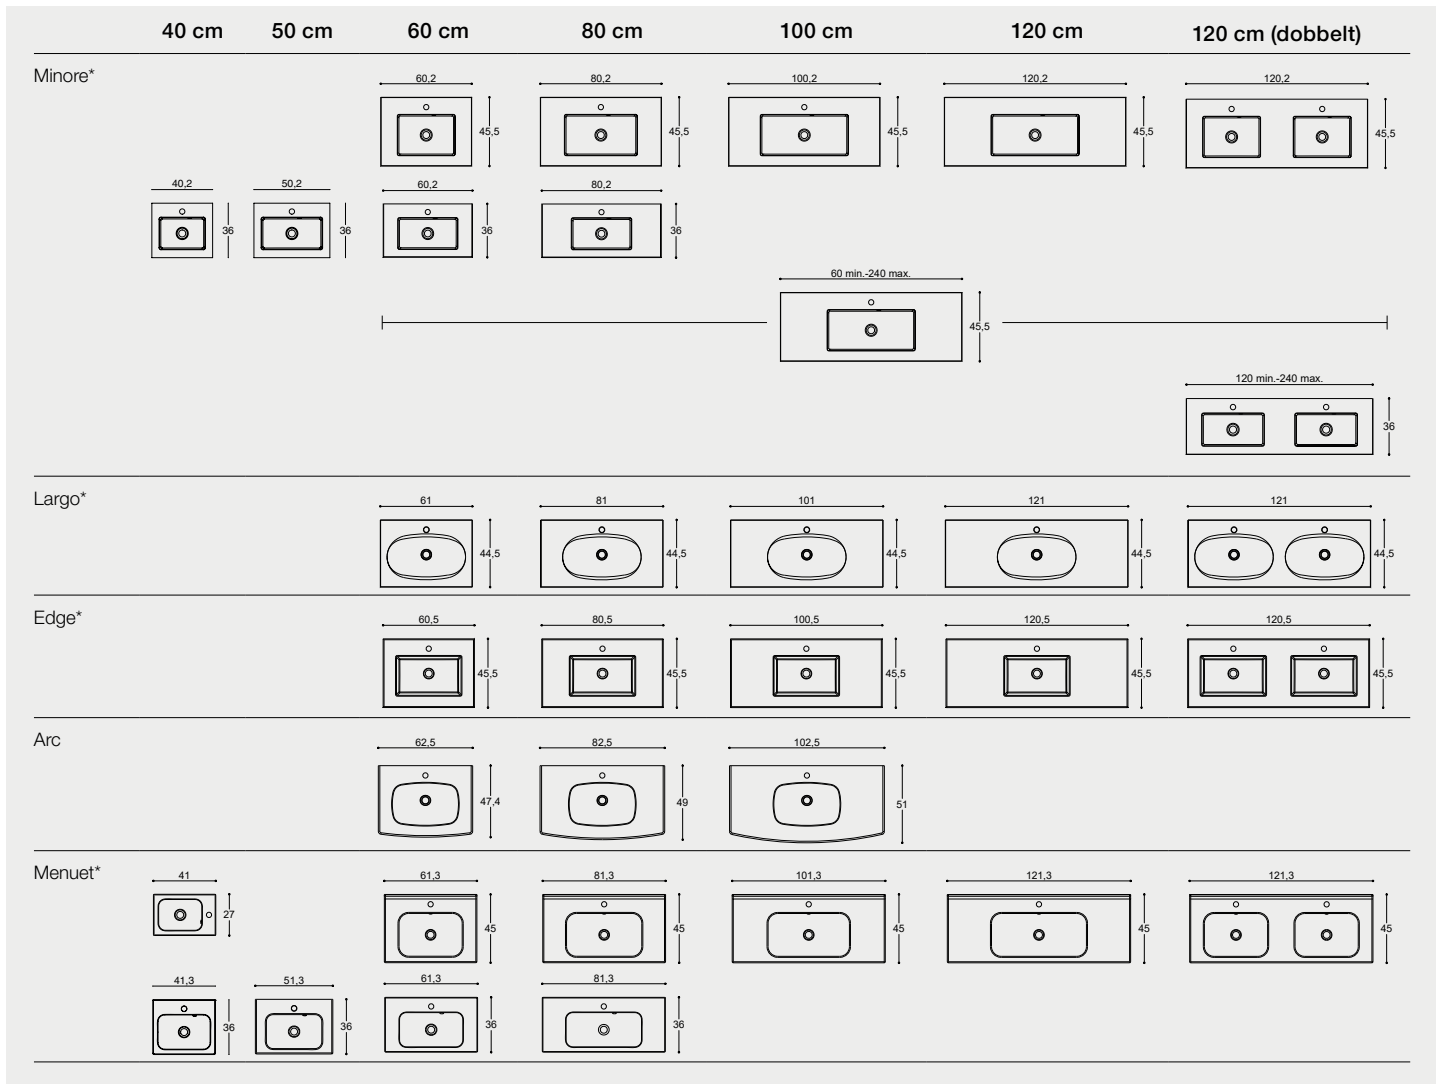

Solid surface / Slim, stringent lines in a minimalistic design with a matt and silky-soft surface

The strong solid surface material features a matt and silky-soft surface which is pleasant to the touch. The ultra-slim design adds a minimalistic expression to this basin, offering a perfect finishing touch to your vanity unit. You can easily clean your solid surface basin by using standard cleaning materials for the bathroom. In addition, we recommend using the Dansani care product for matt surfaces three times a year. Smaller damages can be repaired but avoid abrasive materials.

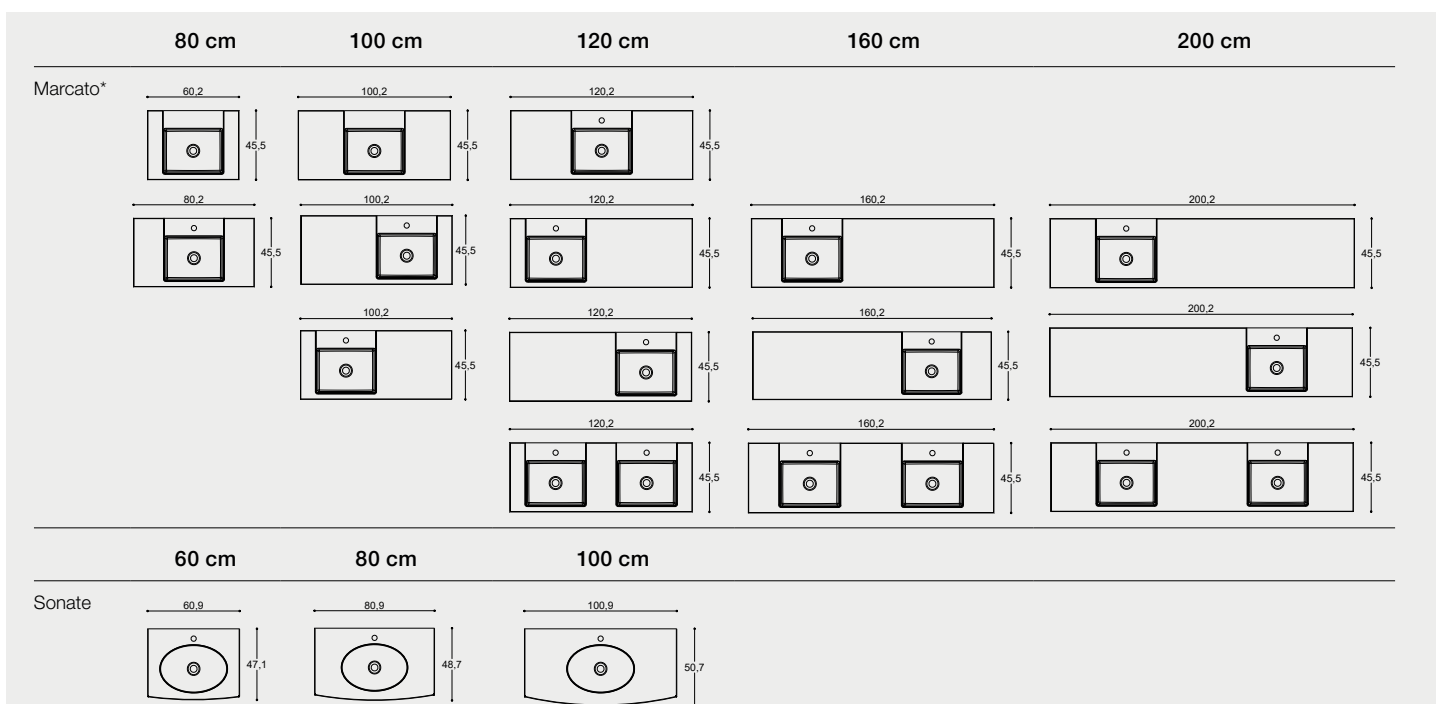

Marble look / Nature-inspired material in a romantic design with a glossy and strong surface

Laminated, ceramic marble tabletop made of natural raw materials that provide a romantic look and a strong surface. The tabletop requires only a minimum amount of maintenance and the use of standard cleaning agents - even after many years of use. The innovative look is obtained through a combination of exquisite marble design, digital technology and a gloss finish.

Basins

Countertop basins

*Can only be used with Classic and Urban vanity units

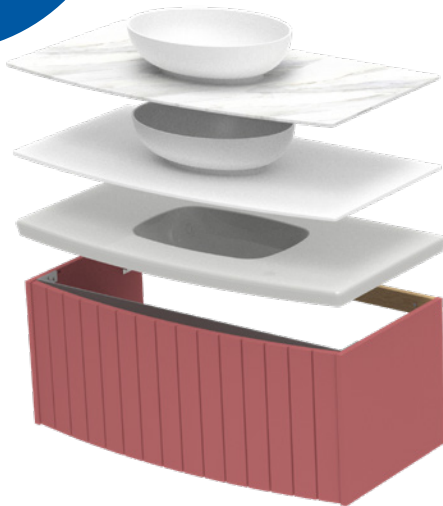

STEP 2

Basin and vanity unit in perfect combination

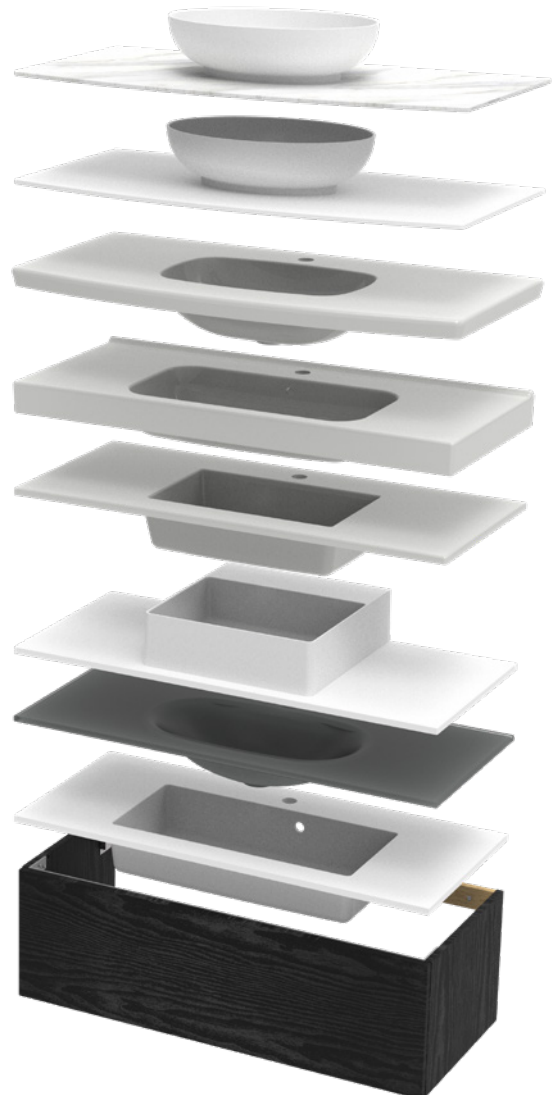

The basins can be easily and simply combined with the many vanity units in the YOU series. The list on the next page shows the available sizes for each basin so that you can choose the combination that is the perfect solution for your bathroom.

Vintage

Please note that the vanity units in the Vintage series must be combined with basins that have a curved front like the cabinets.

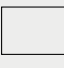

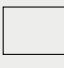

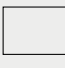

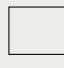

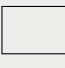

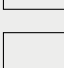

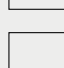

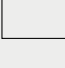

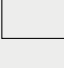

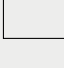

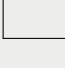

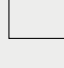

Vintage vanity units with a curved front - curved basin

Classic and Urban vanity units with a straight front - all basins

Choice of colour

You can choose whatever matt colour (sheen 30) you like from two different colour assortments, NCS S (standard colours only) or RAL Classic. You just have to pay a colour set-up fee of 167.- (net price), payable only once for each colour, no matter how many products you order. Please note that a colour code can look different depending on brand, materials, finish and light. For this reason, we recommend that you choose a colour in cooperation with your retailer.

Handles and support legs

A good handle and smart legs improve user friendliness and the look of the cabinets. Depending on the aesthetic and practical requirements, you may choose between long and short, slim and wide handles to emphasise the look you wish to achieve. If you have a minimal solution in mind, you can choose handle-free cabinets and drawers with the push-open function.

STEP 4

Enhanced reflections

Mirrors have always had a magical force of attraction, and the right mirror gives the finishing touch to the bathroom. The impressive range in the Dansani YOU concept therefore gives you plenty of reason to be excited. Mirrors are available with integrated, high-quality LED lighting, and you can choose between various sizes and shapes.

Oval mirror
 Friendly and accommodating, soft shapes help give the bathroom an elegant look which can be emphasised with Lyra LED lamps. Jupiter LED lamps are another option. You can also choose an anti-mist pad to minimise steam on the mirror. The mirror can be installed vertically or horizontally, and compliments both small and large basins.

Soft mirror
 The square look of the mirror is softened by the rounded corners. The height of 80 cm provides a large mirror area. Choose Lyra or Jupiter LED lamps. You can also add an anti-mist pad to minimise steam on the mirror.

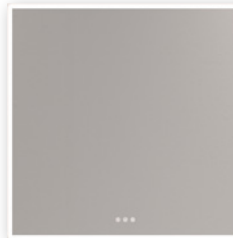

Corona mirror
 The circular LED back-lit mirrors create a beautiful Corona effect, characterising the bright sphere during a solar eclipse. The effect almost makes the mirror float away from the wall. The lighting underlines the shape of the mirror and lights up the wall in a soft glow. You can also add an anti-mist pad to minimise steam on the mirror on 75cm and 90cm sizes.

Moon mirror
 Beautiful and stylish, framed mirror with integrated adjustable LED lighting. The mirror provides a perfect working light as the light in the frame provides a central light around the face, and unwanted shadows are avoided. The frame is formed as a circle and adds a functional and, not least, decorative touch to the bathroom. Available in two colours: matt black or brass look. You can also add an anti-mist pad to minimise steam on the mirror.

Panorama mirror
 The horizontal lighting profiles at the top and bottom provide the panoramic mirror with optimal lighting when you look into it. The light is behind the mirror glass to make cleaning easier. You can also add an anti-mist pad to minimise steam on the mirror.

Nova mirror
 A square mirror with unique, 4-sided and integrated LED lighting for maximum light. The light forms a beautiful, square frame and creates a beautiful, decorative light. The lighting frame is behind the glass surface with a completely smooth and easy-to-clean transition to the mirror. You can also add an anti-mist pad to minimise steam on the mirror.

Dimension mirror
 A mirror that 'frames' and creates a unique harmony as the mirror frame is available in the same colours as the vanity unit. The mirror has LED lighting in the top, casting light on the mirror surface and the practical shelf at the bottom of the frame. It is possible to add underlight that provides working light on the basin and also a heat panel to avoid mist on the mirror.

ICON GUIDE

Mist-free mirror (option)
 With integrated heat panel (30W).

Underlight (option)
 LED lighting profile - beautiful lighting effects above the basin.

External lighting
 Choose between Jupiter or Lyra lamps.

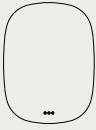

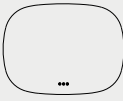

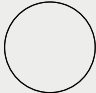

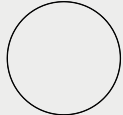

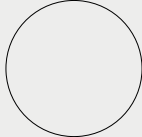

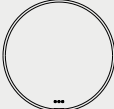

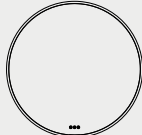

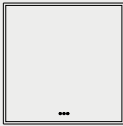

Adjustable light
 The lighting solution is available with adjustable lighting, ie, on-off function, dimmable and colour temperature control.

LED
 Energy-saving light source
 Life: min. 30.000 hours.

STEP 4

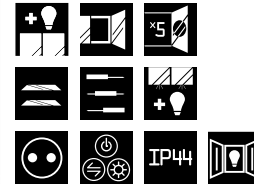

Mirror and cabinet in a practical combination

Our mirror cabinets are filled with practical features to make your everyday life easier. One example is the practical storage modules have adjustable lighting functions and integrated shaver points, and it is possible to select various accessory packages and lights.

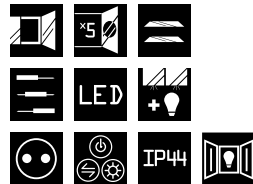

Oval mirror cabinet

The soft shades on the mirror door adds an elegant and romantic look to the bathroom. The shape makes the mirror cabinet usable for both small and large basins. When you open the mirror door, you will see that there is another mirror on the back of the door. There is a cabinet with glass shelves behind the door. It is possible to select an accessory package. Built-in LED lighting ensures a soft light up on the wall and down on the basin.

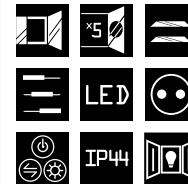

Adapt mirror cabinet

A square and simple mirror cabinet with edge-to-edge doors. Fits into all bathrooms. The doors have mirrors on both sides which makes it possible to look at yourself in the mirror from various angles. The cabinet has lighting control, shaver point, magnet, magnifying mirror and glass shelves that can be adjusted according to height as desired. It is possible to select underlight, internal side lighting in the cabinets as well as an accessory package. Jupiter lights in chrome, black or white can be added to this mirror cabinet.

Panorama mirror cabinet

The horizontal, light profiles at the top and bottom provide the mirror cabinet with optimal lighting when you look into the mirror. The location of the light profiles provides ambient lighting inside the mirror cabinet. Together with the lighting profiles the visible gables frame the mirror for a distinct look. The mirror cabinet has double mirror doors and touch control, shaver point, magnet, magnifying mirror and glass shelves that can be adjusted according to height as desired. It is possible to select underlight and an accessory package.

In-built mirror cabinet

The in-built mirror cabinet provides a unique solution for extra storage room while maintaining the light and spacious look that is otherwise only achieved with a mirror. The mirror cabinet can be recessed into the wall and finished with a square lighting frame profile around the entire mirror. This ensures optimal lighting all the way around the mirror and ambient lighting inside the mirror cabinet. When you open the mirror doors, you have plenty of opportunities to look in the mirror from several angles as there are mirrors on both sides of the doors. The cabinet has touch control, shaver point, magnet, magnifying mirror and glass shelves that can be adjusted according to height as desired.

ICON GUIDE

Double-sided mirror door
Mirror on the front and back of the door.

Magnifying mirror
Magnifies x 5. Optional placement.

External lighting
Choose between Jupiter or Lyra lamps.

Internal lighting (option)
Choose internal LED side lighting to have attractive lighting inside the cabinet.

Underlight (option)
LED lighting profile - beautiful lighting effects above the basin.

Flexible layout
With movable shelves.

Adjustable light
The lighting solution is available with adjustable lighting, ie, on-off function, dimmable and colour temperature control.

Glass shelf
Smoke-tinted glass with beautiful, light finish.

IP44
Zone 2 approved (0-60 cm from shower).

Functional details and smart LED lighting for mirrors and mirror cabinets

With Dansani, a mirror is not just a mirror. Our mirrors and mirror cabinets offer thought out functional solutions.

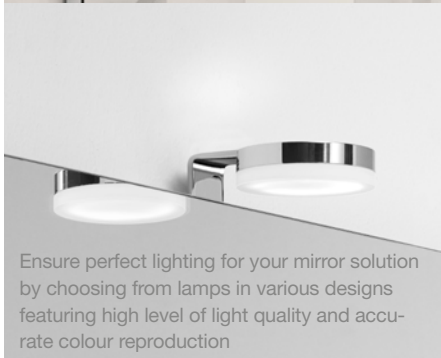

Our lights provide excellent task lighting for make-up application as well as shaving. This enables you to focus on the details. Furthermore our light solutions provide indirect lighting to the room adding that all important finishing touch.

Adjust the light to suit you

Most of our mirrors and mirror cabinets are equipped with an integrated touch panel with on/off function, while also enabling you to adjust the intensity of the light and change the colour from golden warm to cool white.

Enjoy the minimalist look of your mirror cabinet with its hidden, recessed handles, or install the chrome handles included in the delivery

Ensure perfect lighting for your mirror solution by choosing from lamps in various designs featuring high level of light quality and accurate colour reproduction

If you'd like some perfect task lighting above the basin, you can add an underlight to the mirror cabinet

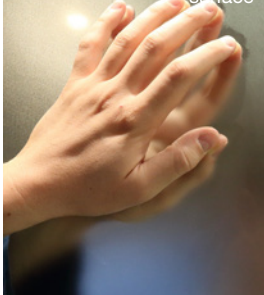

Keep all your belongings nice and tidy with two wooden trays and a metal shelf

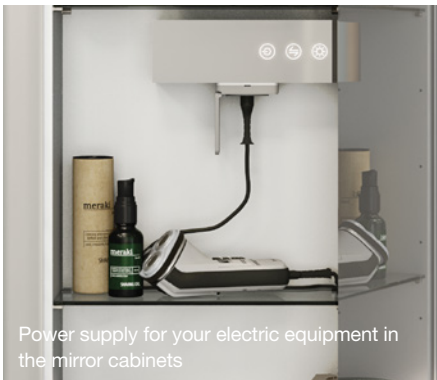

Look at yourself in the mirror from all sides and angles with double-sided mirror doors on the mirror cabinets

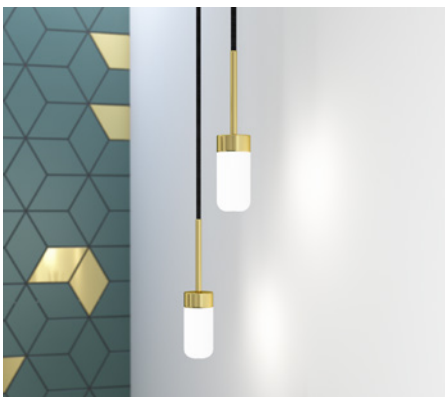

The anti-mist pad reduces mist build-up on the mirror surface

Power supply for your electric equipment in the mirror cabinets

Choose the colour and intensity of your lighting

You can position the round magnifying mirror wherever you'd like

Light up the bathroom by using ceiling lamps and pendant lights that match your mirror lighting

STEP 5

Cabinets

The Dansani YOU range contains an infinite number of possibilities to create storage space and to arrange your bathroom in a flexible way. The many exciting styles open up the way for creative play with many combination options while fully utilising wall space. Would a tall, narrow cabinet be the best option, or would two wall cabinets create a more elegant effect? There might also be room for double cabinets providing you with plenty of storage space for all of your personal belongings.

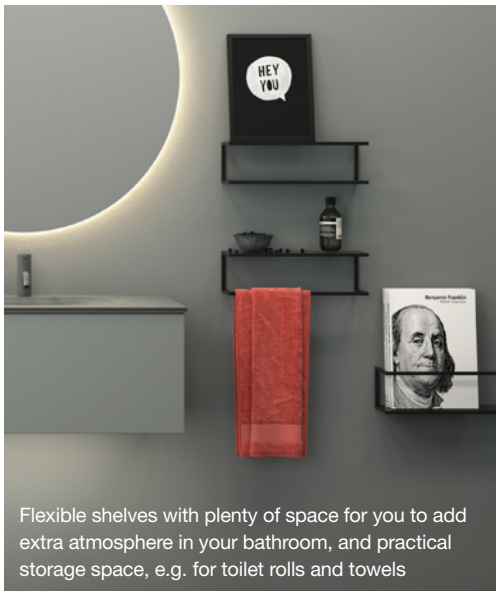

Accessories

Keep everything tidy and add atmosphere with functional accessories

Make sure that your cabinets and drawers are always tidy by using enjoyable accessories that increase your user experience and make it easy for you to keep the bathroom nice and clean.

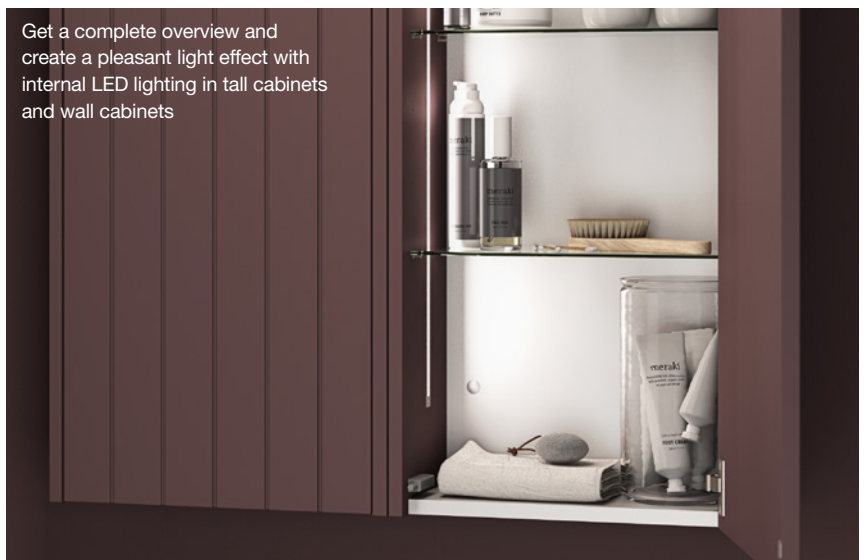

Flexible shelves with plenty of space for you to add extra atmosphere in your bathroom, and practical storage space, e.g. for toilet rolls and towels

Enjoy warm and comfortable towels with this electric heated towel rail

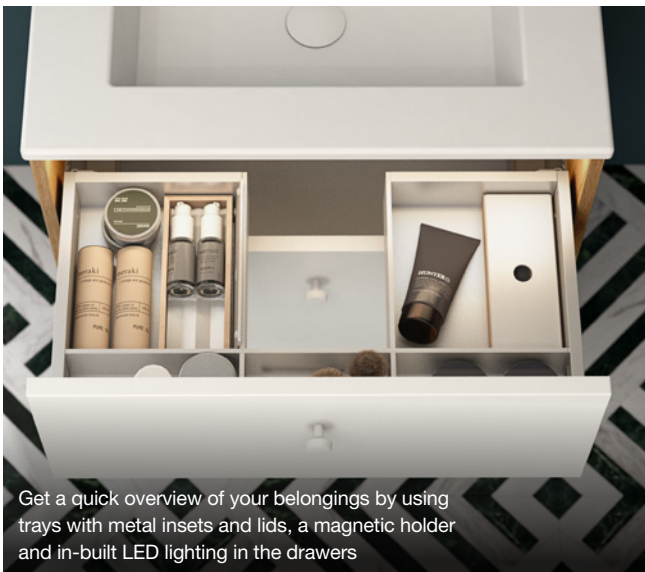

Keep all your bits and pieces nice and tidy with moveable wooden trays inside the tall cabinet

Get a complete overview and create a pleasant light effect with internal LED lighting in tall cabinets and wall cabinets

Get close to the details on your face using this elegant and functional makeup mirror with lighting

Get a quick overview of your belongings by using trays with metal insets and lids, a magnetic holder and in-built LED lighting in the drawers

Enjoy a dimmed LED light below the vanity cabinet when using the bathroom at night

Power within reach with a socket in the bottom drawer. Please note: CE/IE regulations compliant version supplied. For toothbrush and shaver charging only.

Get the laundry off the floor by using this practical laundry bag for mounting in the tall cabinet

Increase your well-being and comfort with a heated towel rail

- Warm and dry towels always to hand in the bathroom
- Avoid extra moisture from wet towels
- Your towel rail is easy to install and is simply connected to a wall socket
- The rails consume only a small, sustainable amount of energy
- Control your power consumption through an easy-to-use on/off function
- Timer function, can be set at 1-12 hours
- IP44 approved for wet rooms – may be positioned within 60 cm of the shower/bathtub
- Optional hidden wiring (1,2-1,5m) which must be installed by an authorised electrician
- 5 year warranty

Viti

Functional model featuring a modern design that's a good height to ensure plenty of space for all the family's towels. Available in chrome and black.

Kvika

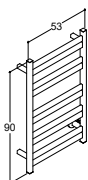

Tall and minimalistic model featuring six hooks at two different heights for both small and large towels. Available in chrome and black.

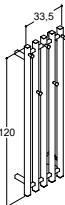

Hydra

A tall model that doesn't take up much wall space, featuring four hooks placed at two different heights and light indicator. Available in chrome and black.

Product information

SOLID SURFACE BASINS AND WORKTOPS

Solid Surface basins and worktops are made from a robust composite material with a waterproof surface that is easy to clean.

Please note: The slim basin design means the basin and worktop must be supported by furniture under the full width unit.

PORCELAIN BASINS

Dansani porcelain basins are manufactured from genuine sanitary porcelain, a strong, glazed ceramic material. When fired at approx. 1220°C, the glaze melts to form a hard, smooth and glossy surface which is easy to clean.

GLASS BASINS

Dansani glass basins are easy to clean, and the surface is resistant to normal cleaning agents. The basins have a grey lacquer on the underside and are produced in a special crystal clear glass finish with a much clearer appearance than standard glass due to less iron oxides in the glass itself. The matt appearance is created by powder etching on the glass surface.

MARBLE LOOK WORKTOP

Laminated, ceramic worktop made of natural raw materials that provide a strong surface that is easy to clean.

The innovative look is obtained through a combination of exquisite marble design, digital technology and a gloss finish

NOTE RE. ARC, EDGE, LARGO, MARCATO AND SONATE BASINS

These basins come without overflow. Unless a concealed overflow system is purchased (not suitable for Sonate) we recommend that a free flowing waste should be installed.

CABINETS

16 mm melamine-coated particle board with ABS edges and PU glue. White matt and special colour with moisture-resistant, two-component finish, has a resistant surface that is easy to clean. The cabinets in all series are supplied as assembled units as well as adjustable brackets for wall mounting. Vanity units are supplied with aluminium coloured bases and rear bracing panels as standard. Tall cabinets and wall cabinets are also supplied with 4 mm glass shelves in smoked glass with polished edges as standard.

Optional extras are available such as push-open in selected cabinets and built-in LED lighting internally in cabinets and accessory packages. For more information on optional extras, please see the price list.

FRONTS

CLASSIC YOU:

The fronts are inset between the cabinet sides and are available with a frame or a plain version with 18 mm MDF fibreboards with moisture-resistant, two-component finish.

VINTAGE YOU:

The fronts are inset between the gables, curved, available in a plain or a grooved version, 21 mm MDF fibreboards, with moisture-resistant, two-component finish.

URBAN YOU:

The fronts are outside of the gables, 19 mm, melamine-coated particle board with ABS edges. White matt and bespoke option with moisture-resistant, two-component finish.

DOORS

All doors are fitted with metal clip hinges that can be adjusted in 3 directions. The doors are fitted with exclusive dampers that ensure that the doors close softly and silently.

DRAWERS

The drawers have metal sides with concealed drawer runners. They are fully extendable, self-closing and have a soft-close function. The top drawer features a cut-out for waste fittings. The drawers are fully adjustable. Rubber mats are standard equipment in all drawers.

Optional extras such as LED lighting in drawers, wooden trays, handles and push-open. For more information on optional extras, please see the price list.

MIRRORS WITH VARIOUS LIGHT SOURCES

The mirrors are available with integrated LED lighting or with different external lights. All mirrors are delivered together with wall fittings. Optional heat panels to reduce mist on the mirror can be purchased for selected models. See further information on electrical specifications, options and IP approvals in the price list.

MIRROR CABINETS

All mirror cabinets are supplied with lighting control, integrated shaver point and touch panel as standard as well as double mirror doors with adjustable hinges and dampers so that the doors will close softly and silently. Tops, bases and rear panels are in alu look finish. Optional extras such as placing the shaver point on the left side, built-in energy-saving LED side lighting and LED underlights can be purchased for selected models. For further information about electrical specifications, optional extras and IP approvals see the price list.

Mirrors and mirror cabinets with adjustable light come with the 12 V lighting system that offers you the following options:

- Light control that remembers the last settings.
 - On-off function
 - Variable dimming with 4 pre-sets
 - Variable colour temperature control of your light (2100 – 6500 K)* with 4 pre-sets

The electronic light adjustment function requires a 5 second interval between activating the off/on touch switch to remember its last setting.
 - Excellent colour rendering (Ra 90+)
- *) 2100K is a very warm, almost reddish light and 6500K is far colder, almost bluish.

CEILING LIGHT

Our ceiling lights come with the 230V lighting system, offering you the following advantages:

- Optimised quality and efficiency with high light output, low heat generation and long lifetime.
- Standardised light between room and product light sources creates uniform, harmonious lighting in the room (3150 K).
- Best colour rendering in the market (Ra 90-95)

ROOM LIGHTING

Our Jupiter ceiling lights, the Jupiter pendant light and the Lyra pendant light, are all part of the standard 230V system with 3150K, but can also be dimmed (except Saturn) using a trailing edge dimmer switch. They can also be combined with controllable-lighting products, but the light uniformity depends on the user's settings.

Energy rating labels and product data sheets can be downloaded from the product database at www.dansani.co.uk or a hard copy can be requested.

WOODEN TRAYS

Functional storage trays for drawers and cabinets, that can be placed where required. The wood trays come in a beech finish.

HANDLES

The furniture comes without handles, which can be ordered as optional extras from our wide range of handles each with their own design, colour and look.

FITTING INSTRUCTIONS

Are included with all orders.

WARRANTY

There is a 10 year warranty against manufacturing defects. On heated towel rails there is a 5 year warranty. For further information regarding quality and tolerances please visit www.dansani.co.uk

Practical information

BEFORE YOU ORDER

The furniture are produced to order. Therefore we have a lead time of 2-3 weeks for standard finishes and 6 weeks for bespoke colours.
 – Always indicate carcass colour.
 - Remember accessories such as handles, built-in lighting and trays in drawers.

BEFORE YOU FIT THE FURNITURE

Please read the fitting instructions carefully before commencing installation. All plumbing work should be carried out by a competent plumber. Please note that the dimensions of the basins are subject to variation within the margins indicated. Fitting of the product signifies acceptance of the quality.

MAINTENANCE

Please always read the folder (enclosed with the furniture on delivery) which contains advice and instructions on the maintenance of your furniture. Always read the instructions and declaration of contents of any cleaning agents before you use them on your new furniture. Cleaning materials containing abrasives and strong acids should not be used. Please make sure that basin and furniture are dried after use. This will make the cleaning easier and avoids your furniture being damaged by moisture.

GENERAL

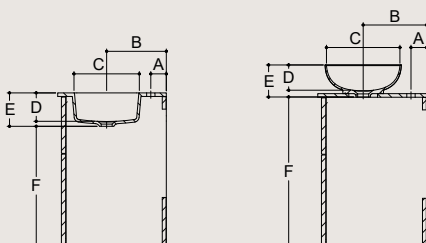

Dansani reserve the right to make any alteration to the products and make product improvements without prior notice. Dansani cannot be held liable for errors due to misprints. Dansani have an ongoing policy of design, development and improvement , we therefore reserve the right to modify specification and prices without prior notice. **Special orders and furniture that has been fitted cannot be returned.**

Dansani a safe choice is your guarantee

Special requirements apply to electrical installations in your bathroom, as water may conduct electricity and cause electrical shocks. Depending on where in the bathroom you want your lighting or furniture with electrical components (shaver point or light), there are special requirements to the IP classification of the product. The IP code is an international standard that indicates the degree of protection provided against water and other foreign bodies. The first digit indicates the degree of protection against dust while the second digit indicates the degree of protection against ingress of water.

At Dansani your safety is our priority. All the electrical components in our furniture have therefore been pre-fitted to guarantee safe installation.

At the same time, we wish to give you an opportunity to maximise the use of the space in your bathroom. Consequently, we have a wide range of IP44-approved products so you can place your furniture as close as possible to water while retaining all the storage space you need.

The following illustrations show how furniture with electrical components can be placed in bathrooms with a bath tub or shower. Naturally, a sufficient shower screen should always be used to prevent moisture damage to your furniture. For more information, see "Service" at www.dansani.co.uk

- Zone 0:** The wettest part of the bathroom, i.e. the inside of the bath tub or the base of the shower, if applicable. There are strict requirements to electrical installations in this area. Always ask an authorised electrician.
- Zone 1:** From the outside of the bath tub or shower base to 2.25 m vertically above floor level. No mirrors or furniture with electrical components may be installed in this area.
- Zone 2:** A limited area covering a radius of 60 cm from the outside of the bath tub or shower base to 2.25 m vertically above floor level. A minimum of IP44 classification is required in this area, and no 230V sockets are permitted. Dansani has a range of IP44 mirrors that can be placed throughout zone 2, while IP44-approved mirror cabinets and washstands with sockets can be placed in zone 2 provided the actual socket is placed outside the zone.

Our price lists show the IP classification of individual mirrors and mirror cabinets (IP21 or IP44).

All our furniture with electrical components is also CE-certified with indication of classification.

We recommend that you have the installation carried out by an authorised electrician in compliance with current legislation.

We assume responsibility

At Dansani, we assume responsibility and we take good care of our environment and the world that we live in. We've been doing this ever since our company was founded in 1983 and this approach is an integral part of our company DNA.

In 2015, the 17 Sustainable Development Goals were defined as a way of ensuring sustainable development towards 2030. By accepting these goals, the countries of the world are obliged to achieve some ambitious goals that guide both rich and poor countries in our fight to get rid of inequality, handle climate changes, fight poverty and ensure better living conditions in terms of health, education, growth and work for everyone. In this way, these Sustainable Development Goals express our shared, global responsibility and represent the goal of the international community of creating a better world.

Our focus areas are:

- To develop our products in order to minimise their environmental impact during manufacturing, use and not least disposal
- To design quality products based on proud, Danish handicraft traditions which can be used for many, many years
- To use raw materials, water and energy in an efficient way in order to minimise our impact on the environment
- To limit emissions, waste and discharge stemming from our activities
- To maintain high levels of safety standards towards our employees and foster responsible environmental policies
- To improve our environmentally-based work in cooperation with our suppliers, customers and other partners

So, when you buy a Dansani product, you can rest assured that we actively assume responsibility for the world that we live in.

Find out more about our initiatives by visiting www.dansani.co.uk.

DANSANI IS COMMITTED TO SUPPORTING THE UN'S GLOBAL GOALS. FOR MORE DETAIL PLEASE VISIT DANSANI.CO.UK

Our Philosophy

Your bathroom is your personal breathing space, and no one can create it better than you. With Dansani, it is easy and inspiring to furnish your bathroom with functional and well thought-out solutions that adapt to the needs of the individual.

Danish design

The idea behind Danish design embraces functionality, simplicity, and naturalness, and is expressed in a timeless design. This is the starting point for every product embraced by the Dansani brand.

Functionality

Our products should be easy and comfortable to use, as well as being able to adapt to the size of the space through smart functions that are practical yet durable.

Craftsmanship

Both design and function must be supported by durable craftsmanship. The excellent cabinetry finish is consistent in all our products, evidenced by gorgeous materials and sustainable solutions.

Sustainability

At Dansani, being environmentally responsible is a given. Therefore, we have implemented several measures to reduce our environmental impact. We also focus on our own work environment, encouraging our suppliers to offer ethically responsible working conditions.
