Homes / Dining Rooms

The home, our nest.

There is no better place in the world to speak of us than the one we live in and that we have chosen as our abode.

Here we decide to spend most of our time, alone or with our loved ones. Here we sleep, eat, play, love, relax and nurture body and mind.

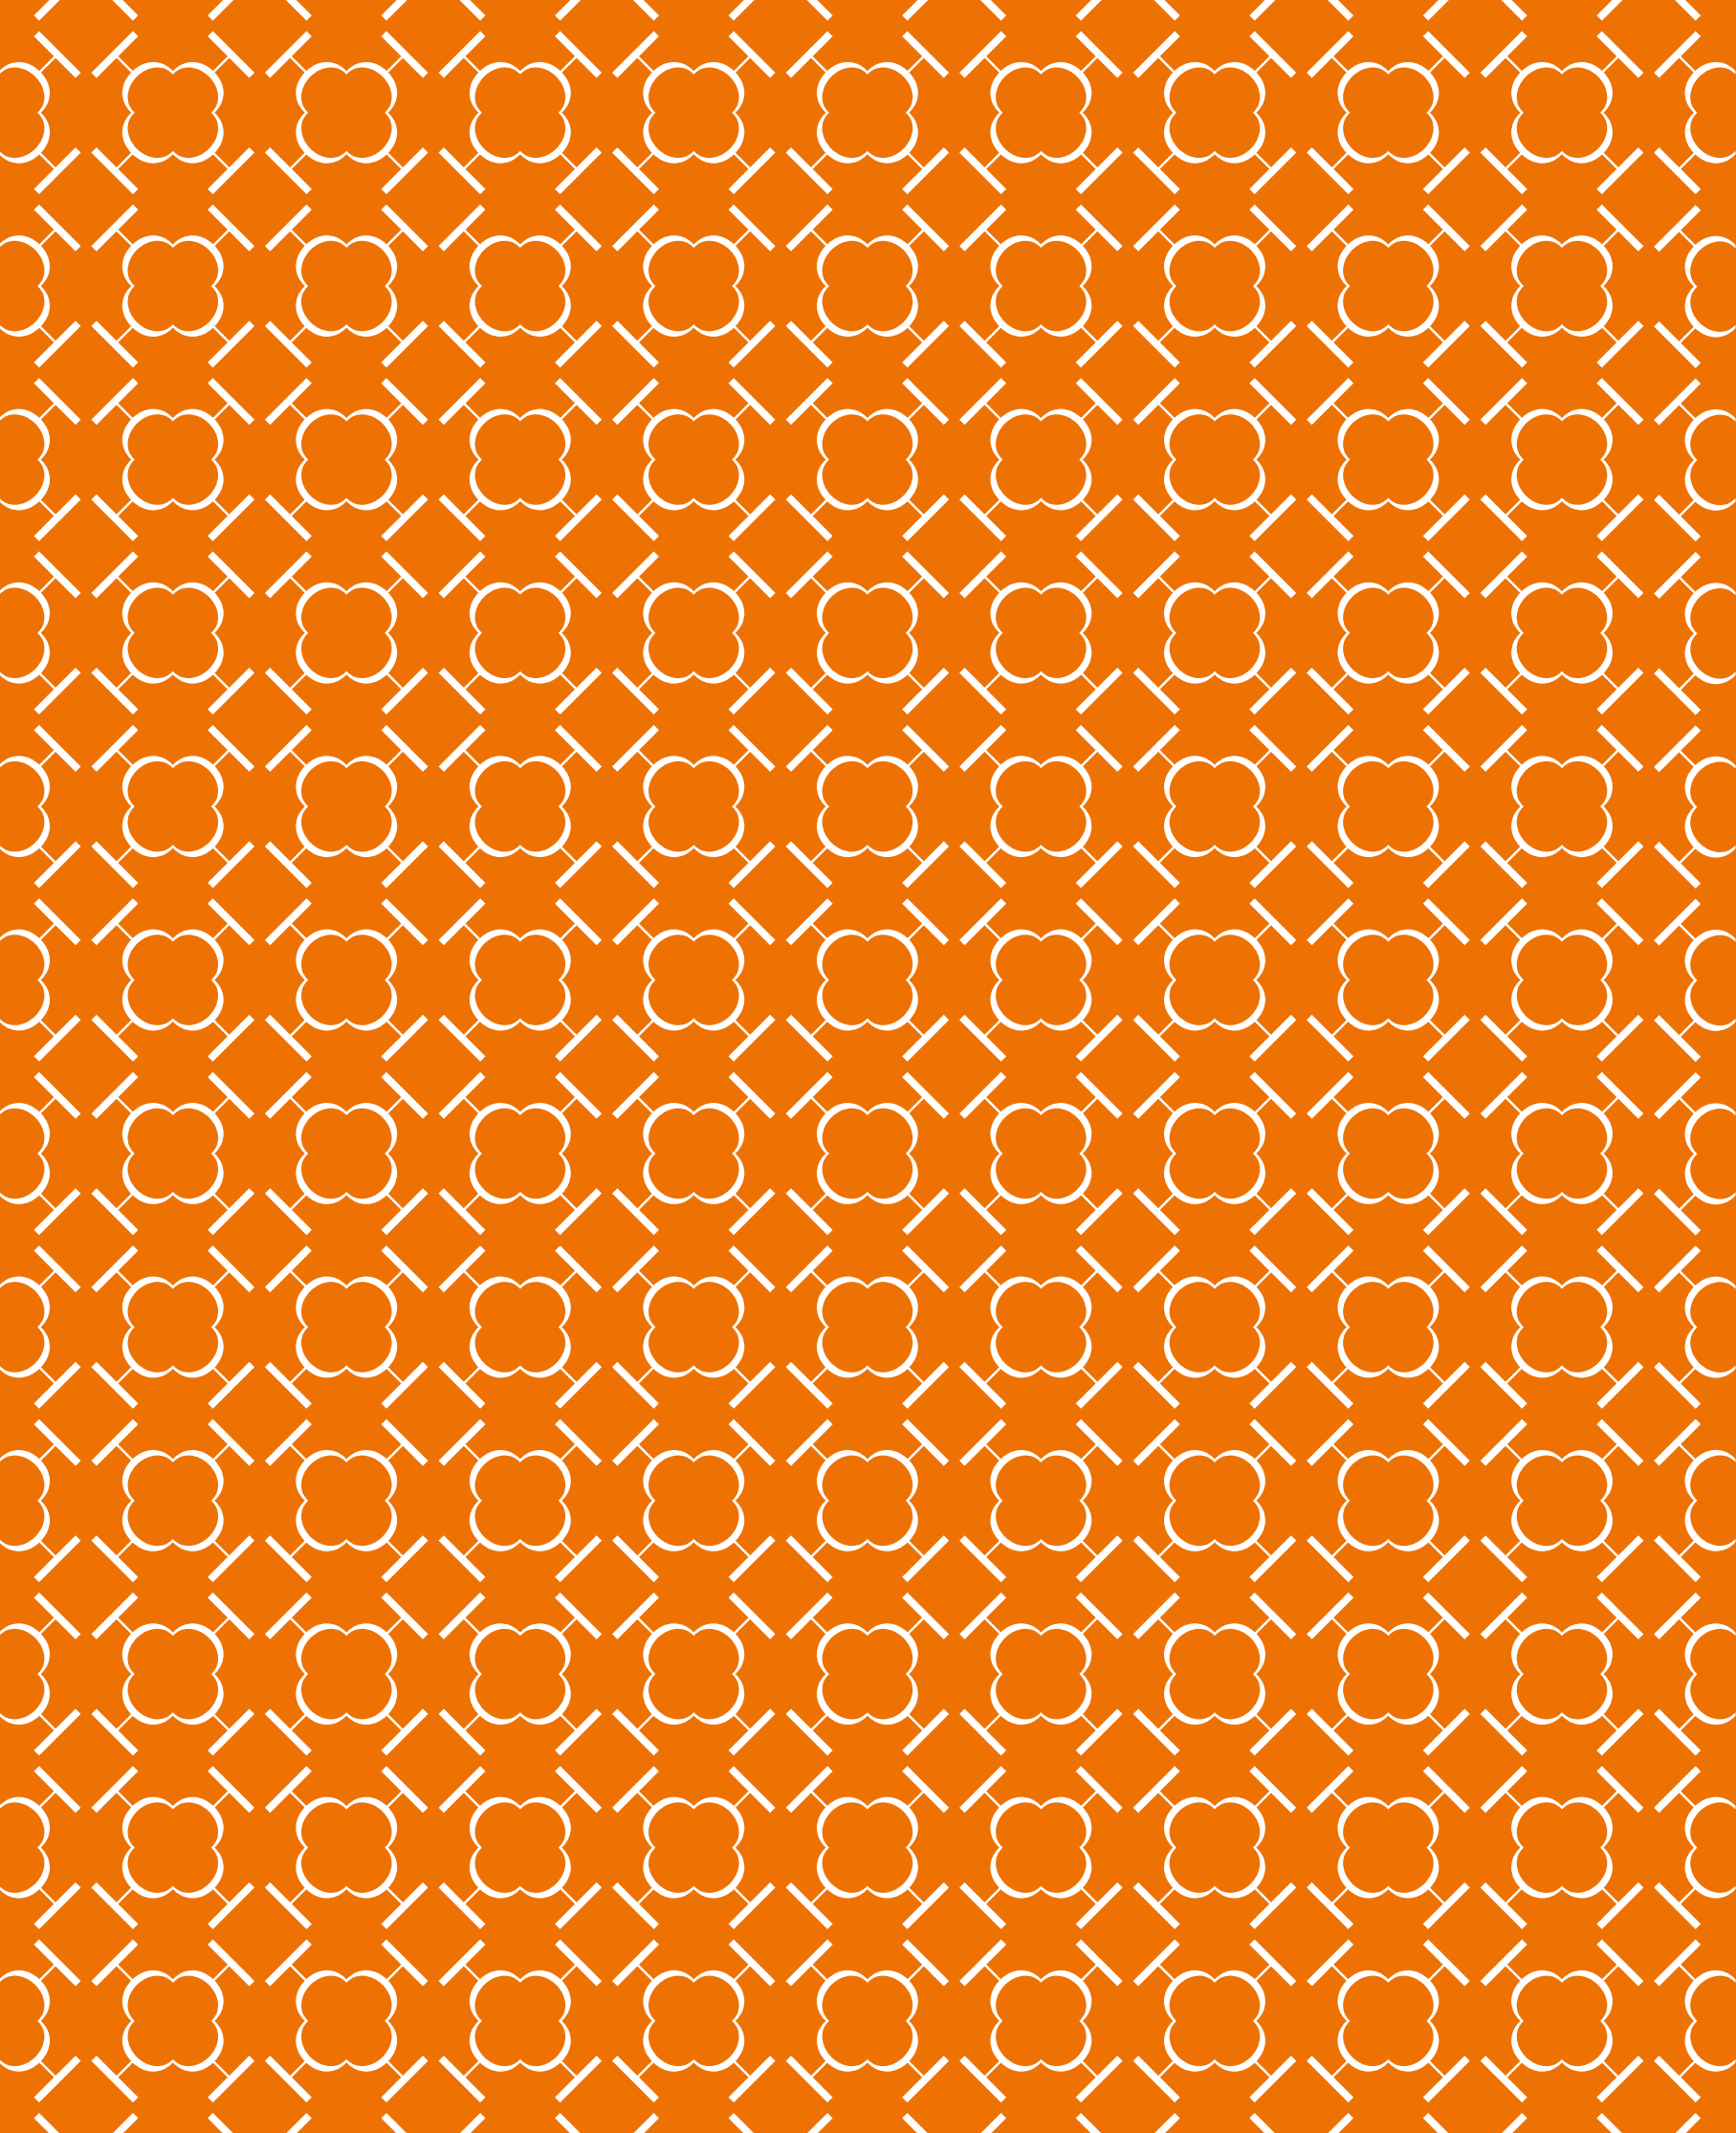

Here we decide to create and express our own world by selecting objects that please us and are functional to our daily needs.

This is furniture: a set of functional objects that talk about us, about our tastes, our way of living our most intimate life, and how we like to interpret the elapsing of time when we are in our nest.

Horm and Casamania have always tried to offer not only simple functional objects, but products capable of interpreting people and blending together in a way that is never banal, never conventional, and always new.

This catalogue aims at conveying our way of conceiving furniture. Like the notes of a score, our products can be arranged together to create different, never repetitive harmonies that are able to adapt and interpret every one of us in the various spaces of the house.

Just as the seven simple musical notes can become a rock, jazz, classical, or pop song, our products have this fascinating feature: giving customers the possibility to compose the original harmony of their own nest.
