INTRODUCTION

Our Spring/Summer 2022 collections introduce distinctive shapes which demonstrate the versatility of mouth-blown glass. Fluid, organic contours contrast with asymmetrical architectural lines. Natural wood brings warmth and tactility to the neutral palette while pearl lustre adds subtle iridescence. From striking decorative objects to versatile pieces for the bar, table or interior, discover new designs which enhance the modern environment.

HERITAGE

Janusz Lubkowski co-founded LSA International in 1960s London. In an environment synonymous with cultural and social change his belief in a diversity of ideas and a passion for contemporary design ensured the company thrived. Through shared experience and inherited values Monika Lubkowska-Jonas continues to develop her father's vision and a culture of understanding that defines our company's past, present and future.

CRAFT

Through the skilled use of hand tools and an understanding of high quality raw materials, our craftsmen use traditional techniques to transform mouth-blown glass into products of intrinsic value. Considered, handmade products that we care about, products with integrity.

DESIGN

We design for people with the simple aim of understanding the purpose and environment of a product. Thoughtful considered design. A sustainable approach which goes beyond form and function to create something considered.

ENVIRONMENT

Our intention is to create useful, relevant products which endure in quality and style. We design thoughtfully, using quality materials and skilled craftsmanship in the hope that our products will be enjoyed, repurposed and taken care of for years to come. Our primary material, glass, is infinitely recyclable, and we also use discarded waste materials such as recycled glass and agglomerated cork. A responsible and sustainable approach which aims to create something with integrity.

MOYA

Our three mouth-blown MOYA collections share the same hallmark LSA silhouette and characteristic quality.

For over 20 years, MOYA has been one of our most popular and timeless designs. Each piece is mouth-blown from a single gather of glass to create a contemporary form with thick, flared stem.

Inspired by the colour of rosé champagne, MOYA BLUSH has a delicate tint achieved by encasing blush pink glass within a layer of clear before blowing and shaping by hand.

A modern interpretation of cut crystal, MOYA CUT features champagne flutes and sets engraved with assorted linear motifs.

INTRODUCTION

Our Spring/Summer 2022 collections are designed to bring people together. Modern shapes made from tactile materials, designed to enhance the occasion. Creating an environment in which to enjoy the company of others. Throughout the collection we continue to use sustainable materials, such as glass, our infinitely recyclable primary material, as well as FSC® certified wood.

Monika Lubkowska-Jonas

HERITAGE

Janusz Lubkowski co-founded LSA International in 1960s London. In an environment synonymous with cultural and social change his belief in a diversity of ideas and a passion for contemporary design ensured the company thrived. Through shared experience and inherited values Monika Lubkowska-Jonas continues to develop her father's vision and a culture of understanding that defines our company's past, present and future.

CRAFT

Through the skilled use of hand tools and an understanding of high quality raw materials, our craftsmen use traditional techniques to transform mouth-blown glass into products of intrinsic value. Considered, handmade products that we care about, products with integrity.

DESIGN

We design for people with the simple aim of understanding the purpose and environment of a product. Thoughtful considered design. A sustainable approach which goes beyond form and function to create something considered.

iF Design award — 2014, 2017, 2018, 2019

DesignPlus award — 2016

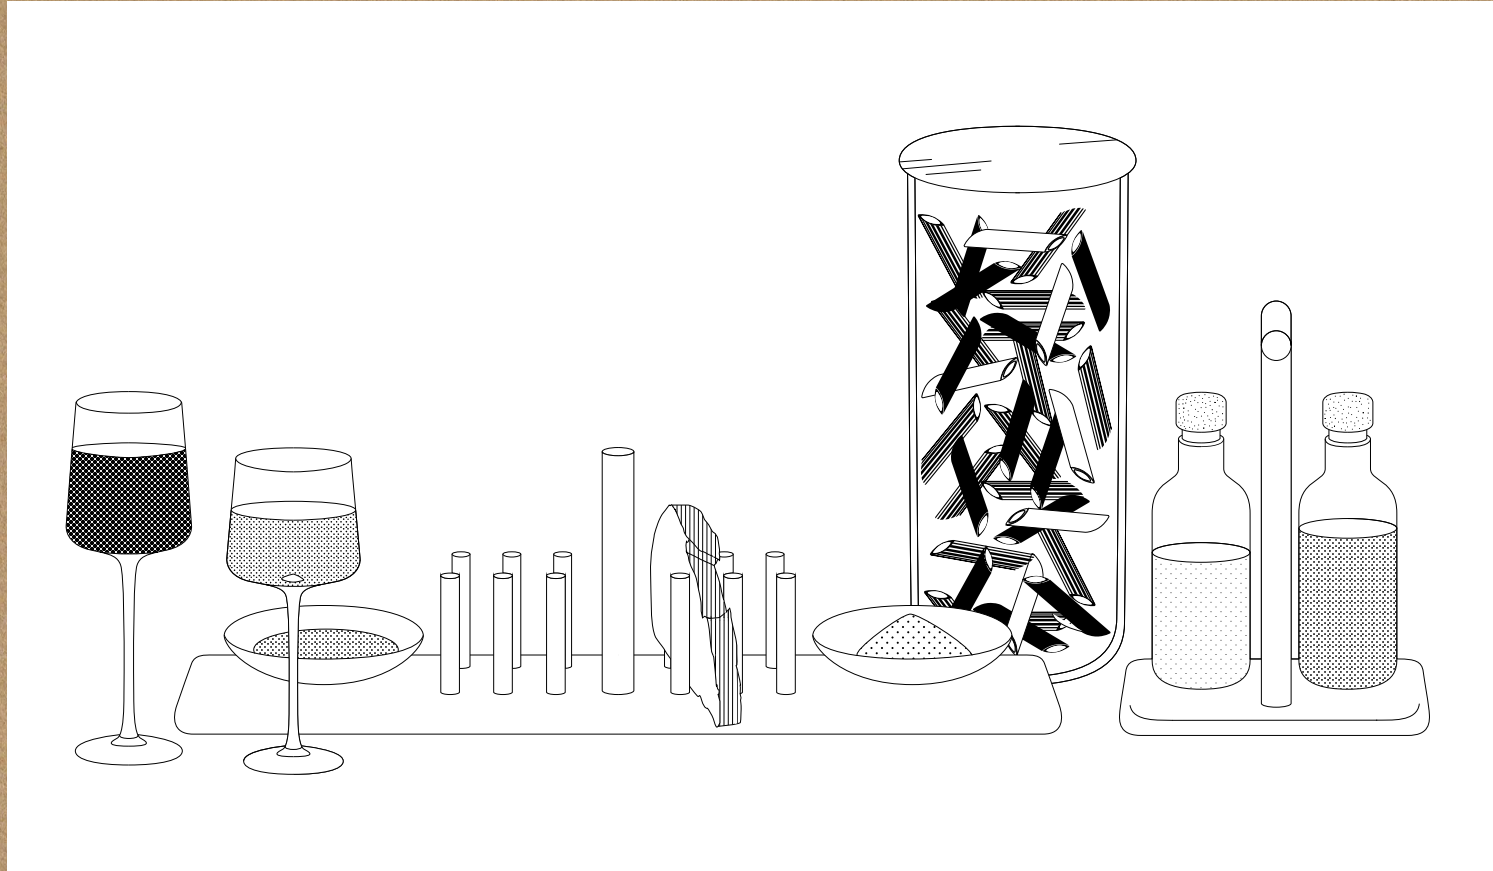

Good Design award — 2016, 2017, 2018, 2019, 2021

Green Good Design award — 2021

ENVIRONMENT

Our intention is to create useful, relevant products which endure in quality and style. We design thoughtfully, using quality materials and skilled craftsmanship in the hope that our products will be enjoyed, repurposed and taken care of for years to come. Our primary material, glass, is infinitely recyclable, and we also use discarded waste materials such as recycled glass and agglomerated cork. A responsible and sustainable approach which aims to create something with integrity.

INTRODUCTION

The Select collection is our curated edit of mouth-blown glass designs carefully chosen to communicate the finest quality craftsmanship and materials required to make each piece by hand; to be used, shared and appreciated over time. For Spring/Summer 2022 we introduce MELT: a series of mouth-blown vases with soft cube and rectangular shaped profiles. Expertly crafted by master glassblowers in contemporary versatile forms, MELT embodies the inherent core values of the Select collection.

Monika Lubkowska-Jonas
Creative Director

HERITAGE

Janusz Lubkowski co-founded LSA International in 1960s London. In an environment synonymous with cultural and social change his belief in a diversity of ideas and a passion for contemporary design ensured the company thrived. Through shared experience and inherited values Monika Lubkowska-Jonas continues to develop her father's vision and a culture of understanding that defines our company's past, present and future.

CRAFT

Through the skilled use of hand tools and an understanding of high quality raw materials, our craftsmen use traditional techniques to transform mouth-blown glass into products of intrinsic value. Considered, handmade products that we care about, products with integrity.

DESIGN

We design for people with the simple aim of understanding the purpose and environment of a product. Thoughtful considered design. A sustainable approach which goes beyond form and function to create something considered.

iF Design award — 2014, 2017, 2018, 2019

DesignPlus award — 2016

Good Design award — 2016, 2017, 2018, 2019, 2021

Green Good Design award — 2021

ENVIRONMENT

Our intention is to create useful, relevant products which endure in quality and style. We design thoughtfully, using quality materials and skilled craftsmanship in the hope that our products will be enjoyed, repurposed and taken care of for years to come. Our primary material, glass, is infinitely recyclable, and we also use discarded waste materials such as recycled glass and agglomerated cork. A responsible and sustainable approach which aims to create something with integrity.
