FLUSH PLATES

TECElux Mini – electronic flush plate made of glass

9240960
White

9240961
Black

You can find your way to the toilet quickly at night even without a light in the bathroom: thanks to the responsive button field on the TECElux Mini that lights up when you approach.

Flushing with the sensor

A casual hand movement in front of the sensor suffices and TECElux Mini actuates the flush touch-free. Anyone preferring the traditional approach can also actuate the flush by lightly tapping the button field.
