BATHROOM FURNITURE

STAGELINE

Comfort in the spotlight

With the STAGELINE furniture collection, atmospheric comfort finds its way into the bathroom. The visual highlight of the series is an open, illuminated storage shelf, perfect for spotlighting decorative items and favourites.

STAGELINE presents itself with modern linearity and straightforward elegance in tone-in-tone look. The glass fronts and furniture bodies are always monochrome, emanating calm and harmony.

STAGELINE

STORAGE SPACE

A genuine talent for tidiness is the vanity unit. With the drawer and optional interior set, intelligent and optimum use of space in the cabinet is assured. For clever organisation of storage space, the interior set can be put together flexibly from four different sizes.

STAGELINE
LIGHTING

The 3000 kelvin, warm-white LED lighting in the illuminated storage shelf is controlled via the room switch. Included are practical features, such as the socket integrated in the shelf and the USB and USB-C charging station.

STAGELINE

BUILT-IN WASHBASIN

To suit your personal taste and style, the vanity units can be combined with flush-mounted ceramic washbasins or round ceramic washbasin tops in lustrated white or black. The impressive thing about the ceramic washbasins is their extremely flat, filigree design and soft shape. The abundant surface space transitions seamlessly into the washbasin bowl. The waste cover made of ceramic harmonises perfectly. Being the extremely easy-to-care-for material that it is, fine ceramic stoneware satisfies the highest standards of durability and hygiene.

Tone-in-tone look: The glass front and body of the STAGELINE bathroom furniture are uniform in colour. Whether brilliant lustre or velvety matt, the furniture's glass fronts add a touch of elegance to every bathroom. There are four glass surfaces to choose from: white or cashmere lustrated and inox or vulcanite satin.

- 1 White PLAN ceramic washbasin, with white glossy vanity unit
- 2 White PLAN ceramic washbasin, with cashmere glossy vanity unit
- 3 White PLAN ceramic washbasin, with inox satin vanity unit
- 4 White PLAN ceramic washbasin, with vulcanite satin vanity unit

STAGELINE

ROUND WASHBASIN

With the STAGELINE round ceramic washbasin, the vanity unit also has abundant space to place things. Single-lever mixers can be placed either to the left or right of the washbasin. As an alternative, a wall spout fitting can also be combined.

- 1/2 STAGELINE round washbasin in black, with vulcanite vanity unit
- 3 STAGELINE round washbasin in white, with inox vanity unit

STAGELINE

THE RIGHT SOLUTIONS

In six different widths from 460 mm to 1200 mm, the washbasin ensemble has the right solution for every bathroom – from the small guest WC, right to single or double washbasin for the large family bathroom. For the smallest model for the WC, the vanity unit has one door – with hinges either on the left or right.

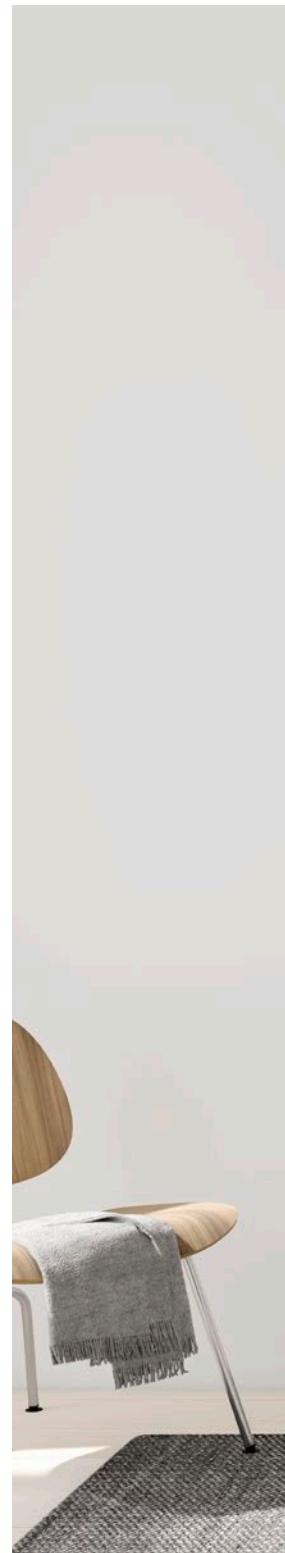

- 1 White PLAN double washbasin, with vulcanite vanity unit
- 2 White STAGELINE round washbasin, with inox vanity unit
- 3 White PLAN guest washbasin, with cashmere vanity unit

STAGELINE

TALL AND SIDE UNITS

For larger storage space needs and high expectations on an atmosphere of comfort, STAGELINE offers three more furniture items: a tall unit, and a single-door and double-door side unit. With its illuminated shelf compartment in the middle, the tall unit radiates an aura of refinement. Bottles and jars or decorative elements can be spotlighted here, too, just as in the vanity unit.

1 The slightly protruding glass front at the top serves as a handle for opening and closing.

2/3 All cabinets impress with soft-close hinges for gentle closing, and premium, easy-to-care-for glass shelves inside.
