

burgbad

Design lines sys20

2021/2022

This catalogue is an invitation to dream. As well as to plan and furnish. And last but not least, to enjoy the time you spend in your new bathroom. Every single day.

A bathroom to enjoy

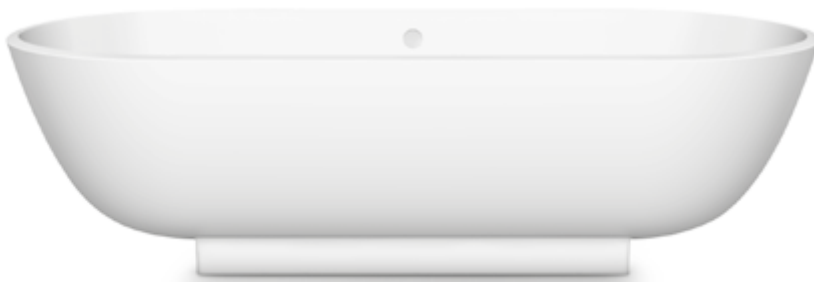

My house. My car. My bathroom. Along with the kitchen and living area, the bathroom is increasingly becoming an expression of its users' individual lifestyle. Whether you own an apartment or a house, this catalogue provides anybody with the desire and opportunity to furnish their bathroom just the way they want with a wealth of beautiful reasons to dream. The abbreviation sys20 stands for a variety of design lines from burgbad. And as German copywriter Carlos Obers once put it, design is art that makes itself useful. Even though he probably wasn't thinking about bathroom furniture when he coined the phrase, the numerous design lines from burgbad underscore that it's true of the bathroom too. Starting with new launches like Lavo 2.0 or Badu, all the way to series like Coco and Crono or Mya and Yumo. Enjoy planning and furnishing your bathroom!

Calm and clear: Coco

Snug and soothing:  
Yumo

The design of the Crono bathtub promises pure relaxation.

Upbeat: Badu

Simple and functional:  
Mya towel rack with rail  
and leather shelf

It doesn't necessarily take an official design award to fall in love with a series from the sys20 collection – after all, beauty always lies in the eye of the beholder, and that goes for design too. It's your personal taste that decides what your dream of a design-oriented bathroom looks like. Together with internationally renowned designers, as well as our own in-house team, we develop bathroom furniture that combines form and function in a wealth of attractive and diverse ways.

German Design Award for the Coco series in 2017. For Flex in 2018. And for Mya in 2019. How do you recognise good design? By awards from renowned institutions like the German Design Council? By the names of its famous creators: Design by ...? Partly. But not only. Good design has appeal, it's timeless and follows a discernible idea. Function takes concrete form. Design can be classic – or experimental. It can be based on straight lines, like Coco, Crono, Essento or Yumo. It can feature dynamic curves, like Badu or Sinea. Or be adaptable and universal, like Flex. It can eliminate boundaries. Between town and country, between the bathroom and living area – like Mya, for instance, which was honoured by the German Design Award in 2019 – partly in recognition of precisely that quality. Judge for yourself. Which burgbad design series is your favourite?

Mya – sys20

# Diverse design

Washbasins made of ceramic, mineral cast or glass. Furniture made of dimensionally stable fibreboard panels with top-quality coated or lacquered finishes. These are the materials burghbad uses to make your design dreams come true.

# Tried and tested materials

The choice of finishes is carefully geared to the design of the respective series.

**Real wood fronts** are made with veneers obtained from natural wood. In a complex process, the veneer is bonded to the substrate at high pressure, sanded and given several coats of varnish so that the fronts retain their natural character.

**Lacquered fronts** are one of the most premium furniture finishes available. They are available in high gloss and matt. The top-class, finely dispersed quality of burgbad's lacquer-finish furniture is achieved by applying thin coats in several stages, with additional polishing in the case of high-gloss fronts.

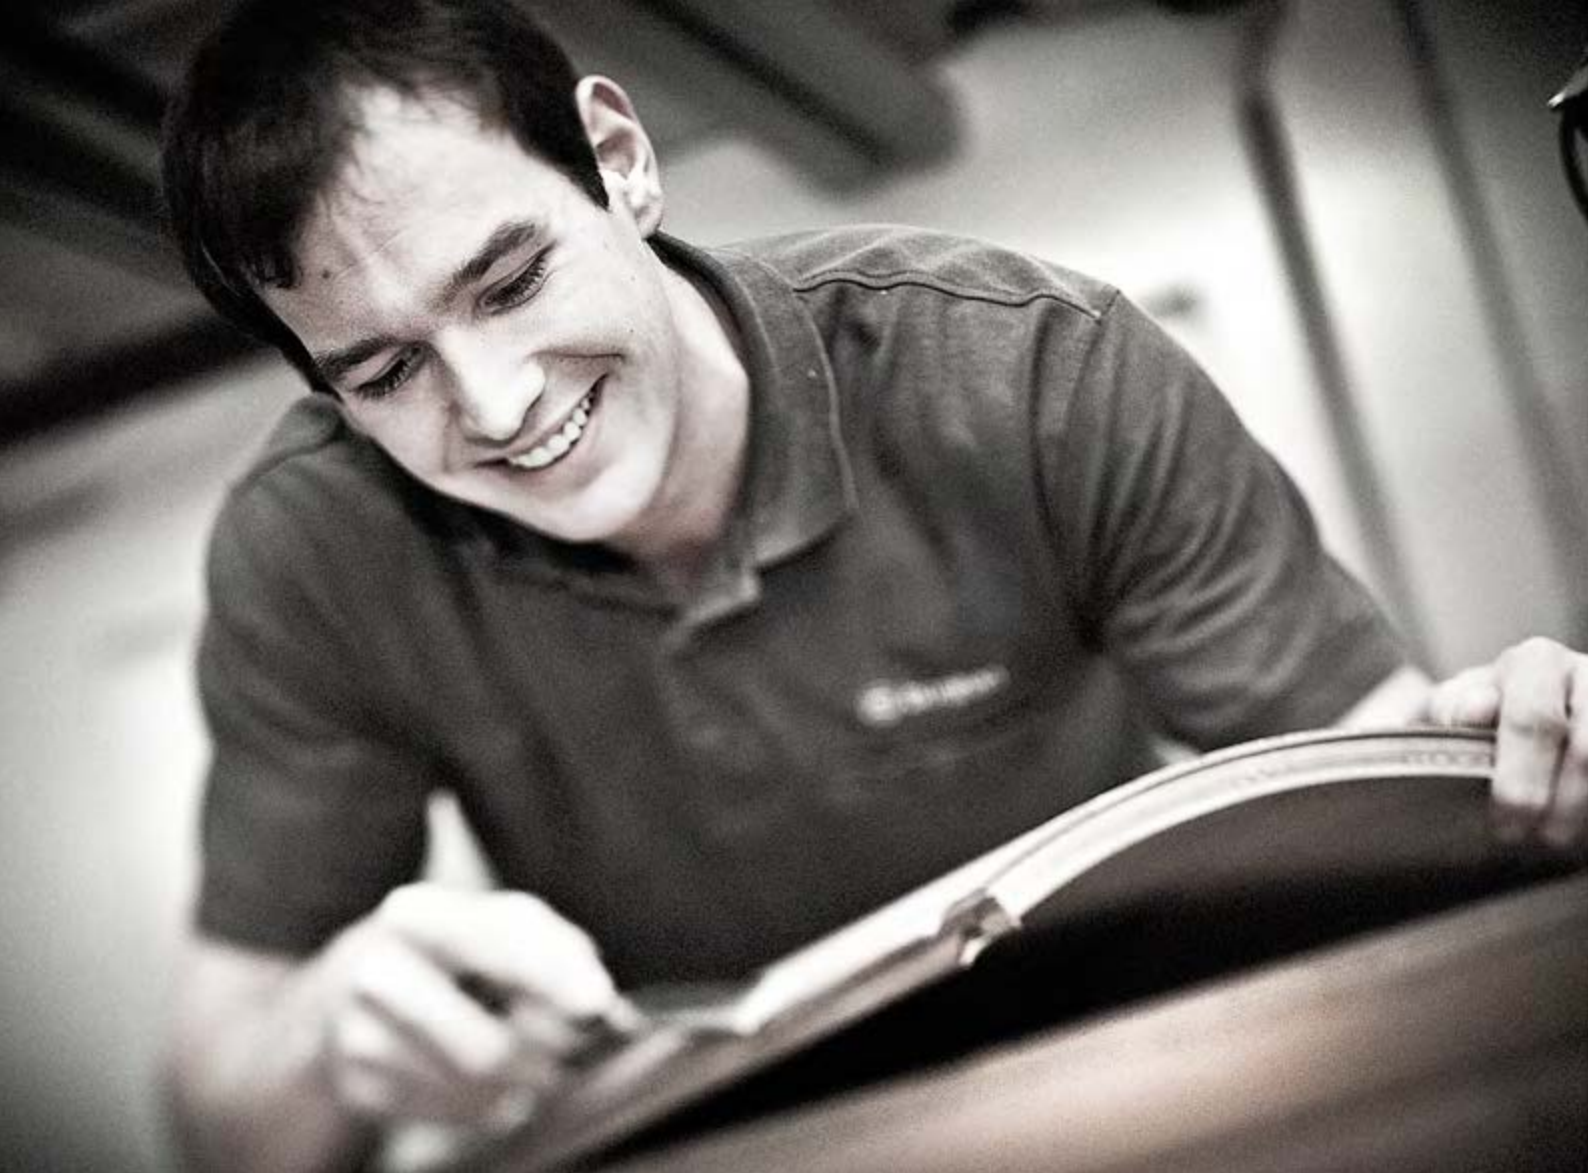

**Acrylic fronts** have an excellent high-gloss depth effect. Burgbad uses innovative laser technology to fuse the surface-coated board and edging into a seamless whole.

**Thermoform fronts** are produced by means of a deep drawing process. The advantage of this process is that the outer side and side edges are seamlessly coated at the same time.

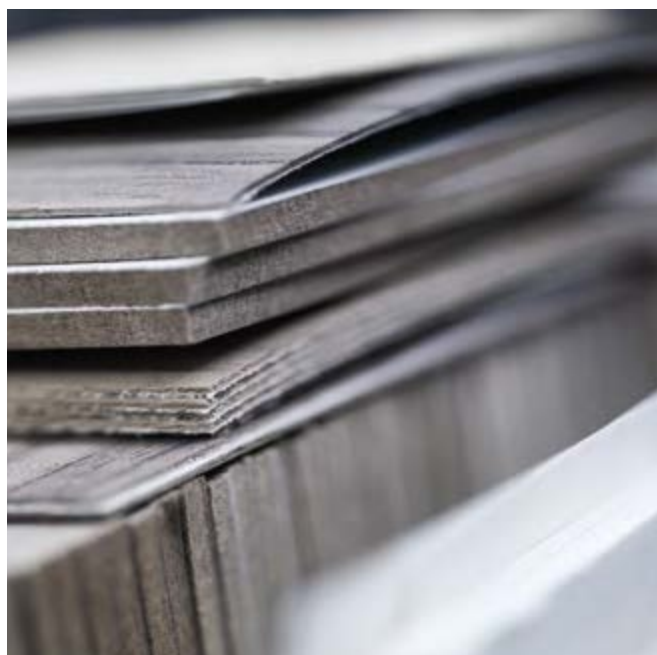

**Melamine fronts** are surface-coated boards finished with edges all the way round. Melamine is a laminate consisting of melamine resin, decorative overlays and a transparent film. The material is extremely hardwearing.

There are few bathroom furniture manufacturers in the world who offer such a wide choice of variants as burgbad. We make your new bathroom furniture to order, precisely to your specifications. Without modern production methods and digitalised processes, that wouldn't be feasible. Nevertheless, experience and skilled craftsmanship are important elements in our production process too. Because ultimately, they're what guarantee that, when it comes to quality, bathroom furniture from burgbad has been held in such high standing for more than five decades. Design lines with curved fronts, such as Lavo 2.0 or Sinea, are the most striking demonstration of just how closely outstanding expertise and high standards of production are linked.

Outstanding  
craftsmanship  
meets Industry 4.0

Outstanding craftsmanship and high standards of production are the foundation for burgbad's official standing as a global market leader for premium, individual bathroom furniture solutions – a position it has held since 2013.

On the same wavelength as your new bathroom: furniture that's dynamic in its design, cheerful and approachable in its impact.

# Badu

Upbeat and charming

Badu is a young design line from burgbad; it brings an elegant, upbeat flair to your bathroom. And it's excellent value for money as well. Badu's key features are its asymmetry and the combined effect of basic and add-on elements.

The design language of the basic components is inspired by the mid-century style. Names like Gropius, Ray and Charles Eames or Arne

Jacobsen influenced this style in the middle third of the 20th century.

Badu reinterprets the mid-century style and combines curved and straight shapes into an attractive mix. While the round and asymmetric elements have a vivacious quality, the straight add-on elements have a calming influence. A combination that Badu allows you to vary in all sorts of ways.

**Furniture**

Mirror cabinet SFUC090

Vanity unit SFUH092

Front: Flanelle oak decor No. F3696

**Washbasin**

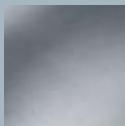

Mineral cast, White brilliant No. C0001

The beautifully designed vanity tops in fine mineral cast are easy to care for and provide plenty of handy space around the basin.

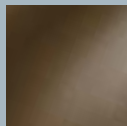

**From plain to bicolour: Badu provides plenty of scope for creative freedom.** The design line is available in 17 different finishes, including four metallic options. Customers also have the option of selecting the curved fronts in three different metallic finishes.

**Gold**

Washbasin incl. vanity unit SFUG122

**Surfaces**

Front: Tectona cinnamon decor No. F3698

Washbasin: Mineral cast, White brilliant No. C0001

**A soothing combination of symmetry and colours.** The mirror cabinet (SFUE150) with a canopy light on both sides and washbasin lighting echoes the symmetry: double washbasin and vanity cabinet (SFUJ152, linen grey F3692) with central shelf element.

**Top, bottom, left, right? Symmetric or asymmetric? Plain or bicolour?** Badu is an invitation to mix and match. Let your imagination run free. The add-on elements on the sides provide extra convenience with a tip-on/soft-close function. The curved fronts have an integrated vertical long-line handle.

**Furniture**

Mirror cabinet SFTU060

Understated: Flanelle oak effect F3696

Natural: Tectona cinnamon effect F3698

Elegant double act: gold T0015/ linen grey F3692

Upmarket looks thanks to top-quality finishes. In a bicolour look or plain, Badu radiates a special charm that you'll see and feel.

Consistent and logical in every detail

Top-mounted lighting with rounded sides

Back panel of shelving element in highlight colour

Vertical long-line handles in two colour options

**Attractive and spacious**

Badu tall unit with open shelving on side  
HSZC050/  
with LED-light  
HSZD050

**Badu is based on a clear design concept: soft and rounded shapes transition into straight lines.** That's reflected in the tall and mid-height cabinets too, as well as in the mirrors and mirror cabinets. What's more, Badu can also be paired with other burgbad design lines to create stylish combinations.

Sumptuously soothing: that's the feeling that sets in as soon as you make yourself comfortable in this tub. All thanks to the special reclining position.

**Badu Bath**  
Mineral cast  
1 – Brilliant  
2 – Velvet outside/Brilliant inside

**Special features**  
Patented reclining position  
Handrail integrated into shape of tub  
for extra safety when getting in or out  
Stainless steel cover for water connections

**See. Feel. Enjoy.** The patented reclining position literally allows you to float in the water. Even getting into the Badu tub is an experience. The water connections are concealed by a stainless steel cover.

Space-saving corner solution

Finely rounded edges

**A smart and space-saving corner solution for guest bathrooms.** Even in the smallest of spaces, Badu works its welcoming, charming magic. As demonstrated here by the mirror in mid-century style with LED lighting on the side.

From the vanity unit all the way to the mirror or mirror cabinet: Badu welcomes your guests with plenty of charm and upbeat elegance.

Bel is an all-rounder. With its multitude of furniture components, washbasin materials and furniture finishes, this design line can satisfy virtually any wants and needs.

# Bel

Subtle and flexible

Bel enhances your bathroom with a fresh, light feel and casual elegance. The variety this design line provides leaves nothing to be desired. Vanity units, cabinets, mirrors, mirror cabinets and washbasins – everything is meticulously designed to coordinate with everything else and function perfectly.

From casual and natural all the way to upmarket and flamboyant: Bel has countless

faces. The finishes range from matt white and wood effects all the way to high-gloss lacquer in both subtle and striking colours.

On the one hand the different finishes underscore Bel's subtle design, on the other – depending on the fronts chosen – they can be used to create bathrooms with a highly distinctive character.

**Furniture**

Mirror cabinet SPFX120

Washbasin: Ceramic, White No. C0001

**Welcome variety and countless practical details.** Ceramic, mineral cast or glass? A vanity top or a sit-on basin? With Bel, you can choose from more than 50 washbasin variants, allowing you to furnish your bathroom just the way you picture it.

This design line pulls out all the stops when it comes to the other bathroom furnishings too. The range includes everything from sideboards and shelves to mid-height cabinets with a laundry hamper and make-up compartment, all the way to a full-length mirror with a storage door.

Beauty in diversity. Bel is an invitation to mix and match and will turn your bathroom into a unique retreat. With a special, cosy atmosphere.

**With Bel, beauty always comes hand in hand with practicality.** Take the HSNK040 tall cabinet, for instance, which has interior LED lighting and an integrated make-up mirror. In addition, the inside of the door features a large mirror attached to its top section.

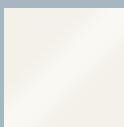

Bel has the answer for anyone in search of a tall unit with a tilt-out laundry hamper too: HSBL040.

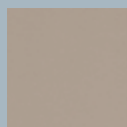

Sideboards, shelf units and wall cabinets in more than 40 finishes, seen here in high-gloss white FO590.

 Washbasin: Ceramic, White No. C0001

**Melamine or thermoform? Wood effects or lacquered fronts with a high-gloss or matt finish?**

A light or dark look? Whatever you decide on, there's an impressive amount of added value behind the fronts of the Bel furniture: practical storage space and clever solutions, like a full-length mirror that helps you keep your bathroom neat and tidy.

Ceramic washbasin with vanity unit in Flanelle oak effect with recessed pull

Ceramic washbasin

Mineral cast washbasin

**Simple, fascinating, flexible. In your guest bathroom too.** Bel gives you the choice: ceramic, mineral cast or glass. The mineral cast washbasin is available both as a built-in vanity top and as a sit-on basin with a slightly larger volume.

The name says it all: Bel stands for simple beauty and variety, even in the guest bathroom.

Lines, rectangles, cubes, circles – with playful ease, Coco combines them into an ensemble that radiates a sense of serene confidence. Winner of the German Design Award 2017.

# Coco

Calm and clear

Simple and unpretentiously beautiful – there are few more fitting ways to describe Coco's appeal. The design line was developed in collaboration with Spanish designer Jeanette Altherr. With Coco, she succeeded in creating bathroom furniture with an effect that is as impressive as it is soothing. The mirror cabinets with indirect lighting are a particularly striking highlight.

Coco resolves storage and furnishing issues in bathrooms big and small. Open and closed storage, mounted on the wall or standing on the floor – there's a perfect and elegant solution for every requirement, including a sophisticated towel ladder and an inviting bench.

The vanity cabinets are fitted with a convenient tip-on/soft-close function.

Coco Mineral cast washbasin incl.  
vanity unit SFHR120

**Surfaces**

Front: Natural oak No. F2853  
Washbasin: Mineral cast, White brilliant  
No. C0001

**Serenity and clarity par excellence.** The vanity units with their subtly accentuated washbasins feature a strikingly clear design and plenty of space to stand things on. Thanks to the thinness of the materials, the vanity cabinets and mineral cast basins seem to merge into a single unit.

All the vanity units are available in two variants: as a floor-standing option, supported by an elegant metal frame with an additional shelf, or a wall-mounted version with two closed storage levels.

SFHQ090

Mineral cast-Washbasin  
incl. vanity unit  
SFHQ150

Impressive clarity and sophisticated functionality – that goes for the Coco furniture around the vanity unit too. Like the little bench or the towel ladder.

The choice of finishes is fine-tuned to Coco's design. Lacquered fronts with a high-gloss or matt finish, melamine fronts and real wood veneers. The veneers radiate a naturally soft look and feature a playful and sophisticated combination of different grain directions that very deliberately underscores the serenity and clarity of Coco's design.

The mirrors and mirror cabinets add the finishing touches to the harmonious overall effect.

The power of serenity. Coco makes it visible and palpable. Through its use of light and form.

Slender synergy

Effortless opening and closing

**Confident, self-possessed, strikingly different.**

Coco's simplicity is nothing short of fascinating. Less is more. The effect is both soothing and poetic: the round mirrored door creates a sunrise over your washbasin. And the towel ladder doubles as a trusted assistant that you'll never want to be without again.

Some bathroom floor plans mean you have to think one step ahead – even if you find yourself in a tight corner.

# Cona 2.0

Clever and practical

When it comes to making optimal use of a very small space for a bathroom, Cona 2.0 strikes exactly the right balance between functionality, utility and looks. And does so in a clear, self-possessed design language. Cona 2.0 is full of practical and user-friendly details.

From the seamless washbasin with a raised edge and the long-line handle that doubles as a towel rail all the way to the roomy and convenient wall cabinet.

The pullout under the washbasin can be used to collect laundry out of sight or conceal a waste bin.

Although Cona 2.0 has a footprint of less than 1 square metre, it provides an enormous amount of storage space for bathroom items of all different shapes and sizes.

**Furniture**  
Corner solution SFJN123

**Surfaces**  
Front: Cashmere oak decor No. F3929  
Washbasin: Mineral cast, White brilliant No. C0001

Clever ideas for tight corners:  
this exceptionally sophisticated corner  
solution really comes into its own when  
space is in short supply.

**Thanks to Cona 2.0, there's always space for a beautiful bathroom – even in the tightest of corners.** When it comes to making space, the series works miracles – in two senses: besides providing a huge amount of storage space, Cona 2.0 also makes the room look bigger than it actually is by extending the mirror around the corner and combining it with an illuminated canopy.

Crono combines a clear and understated design language with a multitude of variants. That opens up welcome scope for planning any bathroom.

# Crono

Straightforward and versatile

Whether you're planning a new bathroom or renovating an existing one, whether the space available is large or small, Crono fits in with all sorts of different dreams of a beautiful bathroom thanks to its clear design language and the multitude of variants available.

Depending on the colour of the finish, the Crono design line tends to create an objective, understated look. But Crono is well worth a closer look.

The bathroom furniture of the Cube line echoes the design language of a ceramic collection by the same name from Grohe, allowing the two series to be combined into a harmonious ensemble.

# Cube

Striking and straightforward

Cube is a fascinating combination of straightforwardness and sensuousness. Enjoy your time in a bathroom that's as individual as you are. Cube offers you an abundant variety of bathroom furniture: vanity units, countertops, mirrors and mirror cabinets, cabinets in all sorts of different shapes and sizes, as well as sideboards and shelves.

The design of the furniture is an ideal match with the ceramic collection and fittings of the same name from Grohe. Cube is guaranteed to attract attention without looking ostentatious. The bathroom furniture is available in 10 thermoform and 8 lacquered fronts, all with a high-gloss or matt finish

**All sorts of convenient details:** the drawers open and close effortlessly, provide plenty of storage space and are equipped with practical dividers. And with Cube, it's well worth taking a look behind the door of the mirror cabinet – as well as at the wide range of mirrors and mirror cabinets available.

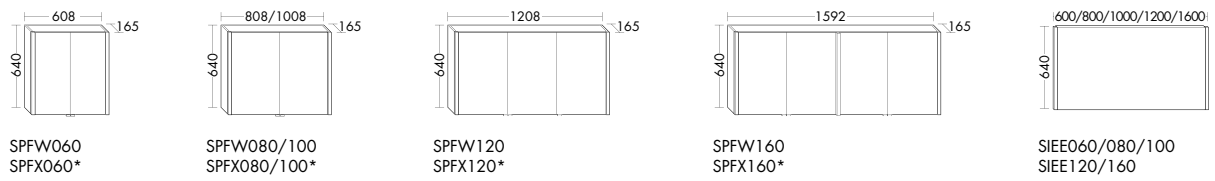

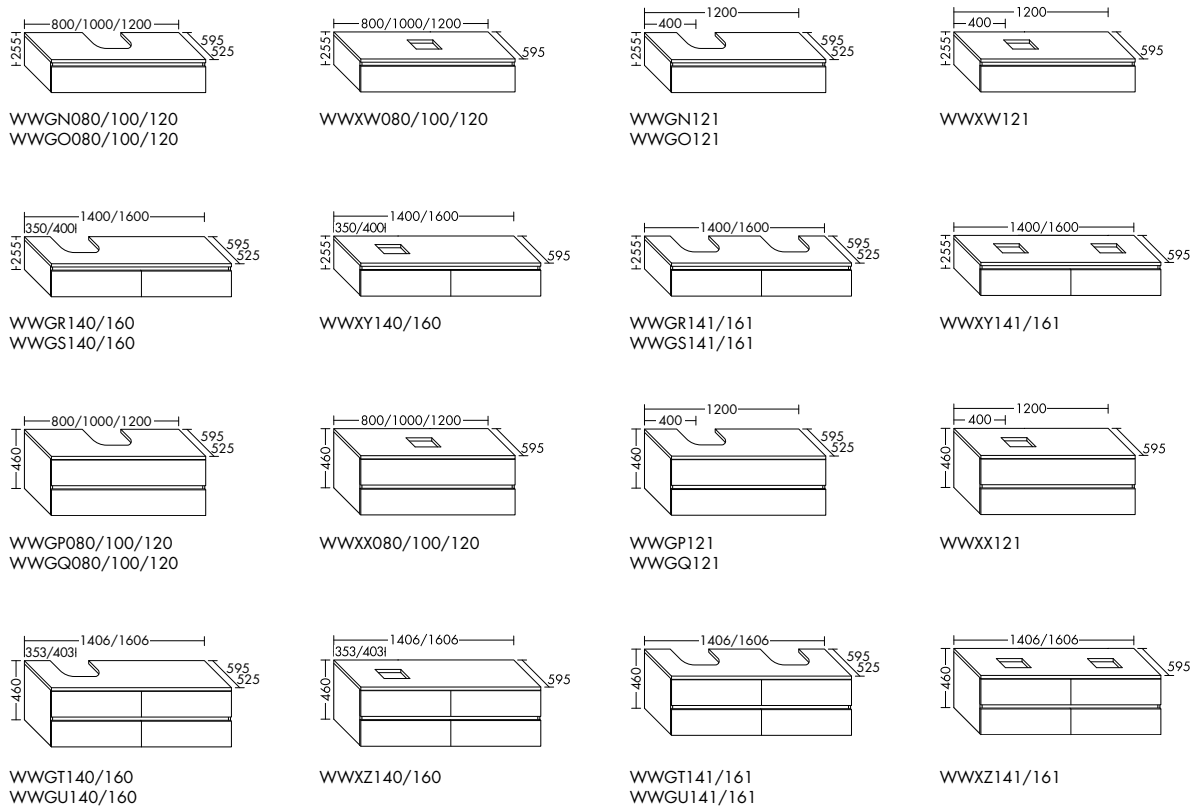

**Generous proportions and a natural lightness.**

The ensemble consisting of sit-on basin, vanity unit and mirror cabinet looks inviting and light, yet neat and tidy too.

An attractive bathroom can help its users relax and unwind. Especially when the bathroom furniture is such a perfect match with the ceramics and fittings from Grohe as the Essence design line.

# Essence

Puristic and harmonious

Doing one thing at a time. Paying attention to what really matters. More inner peace? Who doesn't want that? A beautiful bathroom can work wonders in that respect. Especially when the bathroom furniture, ceramics and fittings add up to such a harmonious whole as in the case of Essence.

Reduced to the essentials, to tranquillity and lightness. That's what the Essence bathroom furniture expresses through the clarity of its design.

But those qualities take the form of convenient functions too: the drawers of the vanity units can be opened and closed with a gentle push (tip-on/soft-close).

Essence is available with 13 thermoform and 8 lacquered fronts, all with a high-gloss or matt finish. And they can be paired perfectly with an identically named series of fittings and ceramics collection, both from Grohe.

Understated in its design but with an abundance of ceramic washbasins, furniture and finishes to choose from. Essento is ideal for mix-and-match solutions and makes you want to start furnishing your bathroom right away.

# Essento

Light and fuss-free

Essento makes light work of furnishing bathroom spaces of any size. And that applies to all sorts of different aspects. The design line offers a wide range of elegant ceramic washbasins – complete with vanity cabinets.

The basins of the ceramic vanity tops are gently curved and form a counterpoint to the fine straight lines of the furniture.

The interiors of the Essento furniture are both versatile and functional: they can be equipped with anything from practical organiser systems and optional LED lighting for the mirror cabinets all the way to a roomy tilt-out laundry hamper.

For everybody who wants an uncluttered bathroom: Essento provides a wide range of variable storage solutions in addition to the vanity unit.

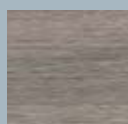

**The choice of finishes has been deliberately selected to harmonise with Essento's understated design.**

And yet the more than 30 fronts available still leave you plenty of scope for expressing your personal preferences. From subdued shades to light and dark wood effects all the way to high-gloss acrylic fronts or lacquered fronts with a matt or high-gloss finish.

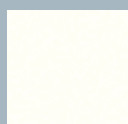

And as for the handles, you can either choose between two different variants or dispense with them entirely – Essento gives you that option too.

Young, fresh and adaptable: Flex is based on the principles of universal design. The bathroom furniture can be effortlessly tailored to virtually any life situation.

# Flex

Modular and variable

For you. For me. For us. Flex is surprisingly different, conceived and created as an overarching concept – and consistently based on the principles of universal design. Flex is just as much at home in a loft setting as it is in a brand new house or a stylish older building.

Thanks to its modular concept, this line of bathroom furniture is flexible in every respect. Take the washbasin, for instance: in just a few simple steps, a professional fitter can adjust it to a different height at any time. Winner of the German Design Award 2018.

Flex is based on a simple modular system with lots of practical functions and useful details. The basic module is a metal frame that's attached to the wall. There's also an add-on wall module and a room divider.

The washbasins, cabinets, shelves, mirror and even small utensils can all be fitted at virtually any height required thanks to the frame modules.

**Furniture**

Wall module incl. washbasin SFPK080

Trolley RCAJ060

**Surfaces**

Front: Merino oak decor No. F2752  
Panels: White matt No. A0305  
Washbasin: Mineral cast, White brilliant No. C0001

### Ledges or grab handles?

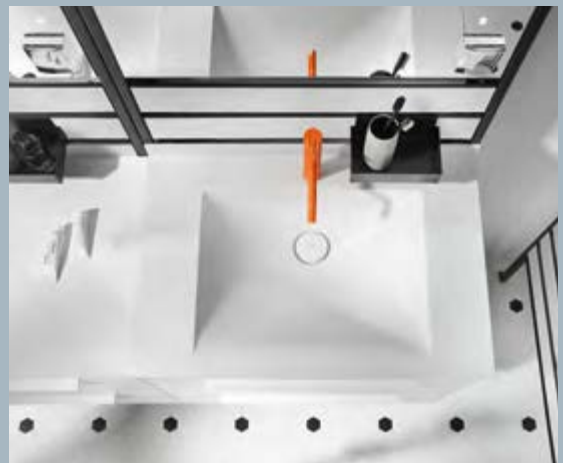

The elegant mineral cast washbasin is available in two different versions. Either with slightly wider ledges on the sides or with the metal frame visible on both sides (top picture).

The visible metal frame performs practical functions as well

**Dark or light?** The panel slats are available in Velvet walnut effect or matt white. For the vanity cabinets and wall units, you can choose from a wide range of different finishes – from thermoform fronts all the way to melamine.

Washbasin variant with concealed supporting frame and roomy side ledges

Without a vanity cabinet, the mineral cast washbasin provides plenty of legroom – when sitting, for instance

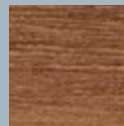

In just a few simple steps, a professional fitter can mount the washbasin at a different height

Flex follows one of the fundamental principles of universal design: creating spaces that people can potentially live in from birth until old age.

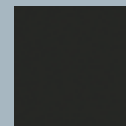

**Flexible in every respect:** the modular concept behind Flex makes it easier to respond to changing requirements at any time.

**Merino oak decor**  
F2752

**Velvet walnut decor**  
F2751

**Graphite soft mat**  
F3963

**Pleasantly simple and understated** – that’s how the jury for the German Design Award 2018 judged the design of Flex! Those same characteristics are reflected not just in the wall modules but in the room divider and the full-length mirror as well.

**Furniture**

Wall modul incl. washbasin SFPK080

Inspired by the sun and moon, by the contrast between night and day. A design series that recalls times gone by yet exudes a captivating modernity.

# Lavo 2.0

Fanciful and cosy

Subtly rounded carcasses and mineral cast washbasins, vanity cabinets and furniture with contours accentuated by lesenes. Lavo 2.0 transforms a simple space into a heavenly bathroom.

Thanks to a wide range of fronts and colours, the design line can be used to create all

sorts of looks: from classy and dignified all the way to youthful, fresh and flamboyant.

The roomy display cabinets are a particularly striking highlight of this series. The accent lighting behind their glass doors casts an atmospheric light both inside and outside the furniture.

**Furniture**

Mirror cabinet SPOW072

Washbasin incl. vanity unit SFZP072

**Surfaces**

Front: Basalt grey matt No. F5045

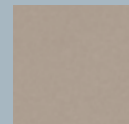

Washbasin: Mineral cast,  
White brilliant No. C0001

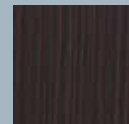

**In search of serenity and security.** The rounded forms of Lavo 2.0 reflect the connecting theme that runs throughout the series: the sun and moon.

Depending on the vanity cabinet, the long-line handle moves from left to right. In the case of the built-in mineral cast vanity tops, it forms a single line with the washbasin mixer.

However, the vanity cabinets can also be combined with various sit-on basins. The sides of the vanity cabinets are edged by lesenes.

Round and round. Round and straight. Lavo 2.0 knows how to mix and match forms to create stylish combinations. Rectangular tall cabinets blend in with the overall picture just as harmoniously as the display cabinets, mirrors and mirror cabinets.

Tempting trio: sideboard, vanity unit and mirror with LED lighting around the perimeter

Perfect pair: two tall cabinets that are evidently meant for each other

Asymmetric alliance: the mirror cabinet echoes the geometry of the washbasin and vanity cabinet.

Bright borders: the rounded and dimmable LED lights form an attractive frame for the mirrored doors

**An eye-catching trio.** Instead of a double washbasin, a duet of two single vanity units, accompanied by a display cabinet that uniquely underscores the cosy character of Lavo 2.0.

Steady yet graceful – the display cabinet leans against the wall and is fixed to it, but also has two feet firmly on the ground.

Form, function, emotionality. The Lavo 2.0 display cabinet encapsulates all three.

The display cabinet has glass doors that open up wide to both sides and is available with or without interior lighting.

**Furniture**  
Mid height unit SGCK101  
Front: Basalt grey matt F5045

**Classic, dignified, yet out of the ordinary.**

The washing area with LED mirror is framed by practical furniture and accessories. The sideboard under the vanity cabinet provides lots of additional storage space. The tall cabinets, which are also ideal for combining to create a double unit, are available with or without a glass door.

 Washbasin: Mineral cast, White brilliant No. C0001

Washbasins, mirrors, cabinets, countertops. Lavo 2.0 is an invitation to play with variations.

**This way. That way. Another way.** Lavo 2.0 gives you a free hand: choose between built-in vanity tops and sit-on basins in all sorts of shapes. The sideboards permit lots of flexibility too: they can be used to create a make-up area, for instance (see right).

**A perfect fit with the bathroom and Lavo 2.0:** minimalist accessories that pick up on the sun and moon theme, like a wall-mounted shelf with integrated mirror. The series also includes a hanging shelf that is suspended from the ceiling, as well as a stand-mounted tray shelf (please also see page 279).

Lavo 2.0 lets you create a fresh,  
eye-catching look in your bathroom.  
No matter what size it is.

Perfect harmony: washbasin and side ledges

Elegant curves: the doors and drawers of the  
bathroom dresser

**Lavo 2.0 accommodates your individual wants and needs.** The bathroom furniture in this design series is available in lots of attractive thermoform finishes. All the way from soft matt to high gloss and from dark to muted wood effects.

The vertical long-line handles for the display cabinets, cabinets and vanity units are available in chrome and black. The drawers can also be conveniently opened from the side.

**Furniture**

A design line free of anything superfluous:  
no handles, straight-edged and elegant.  
Lin20 brings order and clarity to both large  
and small bathroom spaces.

# Lin20

Authentic and balanced

Calm, clarity and a wide choice of modular storage solutions and attractive fronts (in melamine, acrylic and lacquer finishes). If that is what you want for your bathroom, you will find the ideal furnishing partner in Lin20. This design line is not only great for transforming spacious floor plans into dreamy bathroom landscapes.

Even in small, narrow spaces, Lin20 is a perfect choice to furnish your bathroom with timeless beauty. The furniture without handles can also be combined in a variety of ways to form impressive units, both wall-hung and floor-standing.

**Furniture**

Mirror with light SJN075  
Washbasin incl. vanity unit SGHX122

**Surfaces**

Front: White matt No. F5351  
Washbasin: Mineral cast,  
White brilliant No. C0001

**Simple in form, rich in variety:** With Lin20, this goes for both furniture and washbasins. There is a whole range of washbasin variants to match the vanity units. The recessed and countertop washbasins

are available in a choice of ceramic or mineral cast. Thanks to the high pull-out drawers of the vanity unit or sideboards, even bulky items can be stored neatly and conveniently.

Sideboard, available in widths of 800, 1000 and 1200 mm

Plenty of storage space, even at height

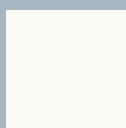

Ceramic or mineral cast? Recessed or countertop washbasin? Lin20 gives you free reign. Matching the simple design of the base unit, each washbasin has an elegant and balanced look.

**As if made for Lin20: a filigree ceramic countertop basin.** It picks up the impression of the fine fronts of the vanity units. The console panel also allows combination with other countertop washbasins from the System series (sys30).

**Rust oak  
decor**  
F5359

**Flexible and coherent.** Lin20 is based on a modular concept. Vanity units and top cabinets combine to create a harmonious overall appearance. The long line handle underlines the straight-edged and authentic character of the design line.

**Everything in a line:** Atmospheric lighting, abundant storage and beautiful basins. The round mirrors with all-round LED lighting have mirror heating. Both the countertop and recessed washbasins are deliberately positioned slightly higher than the side cabinets.

**Furniture**

Washbasin incl.  
vanity unit SGHG083  
Base unit USIV060

**Surfaces**

Front: Dark grey matt  
No. F5381  
Washbasin: Ceramic,  
White No. C0001

Lin20 inspires unusual bathroom ideas that are reminiscent of modern kitchen units in their clear visual appearance.

**High capacity.** Order lovers will find their ideal counterpart in the Lin20 design line. The bottom pull-out drawer is higher than the two top pull-out drawers on all base units or on vanity units with a height of at least 320 mm.

**Hand in hand with sys30.** Lin20 can be combined with a wide range of countertop washbasins from the sys30 System series. In addition to the mineral cast washbasins in brilliant white and white velvet, there are also ceramic basins in black or matt white.

**Furniture**

Well thought out: Hairdryer holder and socket

Everything in perfect order – thanks to optimal interior organisation

The ideal side addition to the washbasin:  
Medicine cabinet

Lin20 is a design line  
with a great sense of order.  
In big and small ways.

Towels, care products, cosmetic utensils – you can never have enough space in the bathroom. With Lin20, problem solved.

**Clean and tidy?** The question of how you can always achieve this in the bathroom can be answered with Lin20 with its wall-hung and floor-standing solutions. The tall units are available in a wide range of variants. With laundry basket, internal drawers and magnifying mirror or with elegant angled shelves on the inside of the top cabinet door.

**Sensitive play of colours.** Something the world of fashion understands: colour blocking. Colours are lined up flat against each other. Lin20's understated design and wide range of surfaces allow for finely tuned contrasts.

**Clear line.** No handles – and yet convenient to open at any time. This goes for all Lin20 furniture elements. From vanity units to cabinets and sideboards.

Switch on the light at the mirror cabinet – and block out everyday life for a few minutes. With Lin20, this is quite simple.

#### Formally coherent down to the last detail.

The ceramic washbasin is matched to Lin20 in its proportions. With its reduced depth dimension of 370 mm, it is ideal for narrow layouts. The dimmable LED light strip on the mirror cabinet is also adjustable in light temperature; it picks up on the horizontal lines formed by the recessed handles of Lin20.

**Calming.** Even in a small space, Lin20 succeeds in creating an atmosphere that is refreshing on the one hand and radiates calm and serenity on the other. The spacious tall units make a crucial contribution to this.

**Fine shell, functional core.** Thanks to their low material thickness, the furniture fronts of Lin20 almost look like they are floating. And they also have many functions that make life in the bathroom easier. This tall unit features, in particular, two interior drawers, a magnifying mirror and integrated LED interior lighting.

City. Bath. Guest bathroom. Where efficient use of space is particularly in demand, Lin20 has the right answers.

"City Baths" in a special chic colour (RAL): optimised for more storage

**Clever and space-saving.**

Lin20 knows how to inspire bathroom users even in the smallest of spaces. Whether with the space-saving, 365 mm deep mineral cast washbasin including floor-standing base unit or with clever guest bathroom solutions.

Nostalgia and modernity – the Max design line weaves them together in a very special way: sustainable and natural, mindful and homely.

# Max

Simple and natural

The more turbulent and fast-moving our everyday life becomes, the more the longing for peace and security, for simplicity and plainness grows. With Max you can fulfil this wish in many ways. With bathroom furniture in a classic post-and-panel construction.

The design line is optionally available in light or dark wood finishes: in natural knotty oak or dark chocolate oak. The doors and drawers are each finely framed. In addition, it is possible to combine the individual furniture elements with Viennese wickerwork.

**Furniture**

**High-quality wickerwork for your bathroom.** For centuries, Viennese wickerwork has adorned the seats of chairs or a wide variety of furniture in the home. With Max, the airy and traditional material makes its way into the bathroom. Viennese wickerwork is made from the leaves of rattan palms.

All vanity units and ancillary furniture are supported by four corner posts made of solid wood; they form the basic framework for the furniture and also serve as feet for the floor-standing versions of the vanity units.

Less is more. Back to the roots. To simplicity and clarity. To an open and warm-hearted design language. Mya links past and present with modernity.

# Mya

Natural and authentic

Solid wood, real wood veneers and leather – Mya combines all three into a design language that creates an open, simple and modern effect. The design line was created by Jeannette Altherr and her design firm Lievore Altherr.

Mya translates old familiar furnishing elements into a natural and timeless design. Anything is possible: from fresh and Scandinavian all the way to upscale and dignified. Winner of the German Design Award 2019.

Mya is available in two natural shades. In black oak, the design line looks refined and elegant. In natural oak, the furniture fits in perfectly with a Scandinavian-style ambience.

The vanity unit with a ceramic sit-on washbasin is available in both a wide and a narrow version. The round illuminated mirror bathes the room in a pleasant light.

Washbasin: Ceramic, Black matt  
No. C0038

**Solid wood, real wood veneers and leather – Mya combines all three into an exceptional design language.** This design series features simple, rounded solid wood rods that serve not just as legs but as the frames and crosspieces of the vanity unit and matching furniture, which looks just as much at home in a living room setting.

Finely crafted details like the dovetailing on the edges of the drawers or the leather loops for opening them add the finishing touches to the simple yet beautiful overall impression.

Simple but finely crafted: drawers with dovetail joints and leather loops

Ceramic washbasin incl. vanity unit  
SFKH120

Ceramic washbasin incl. vanity unit  
SFKH120

Ceramic washbasin incl. vanity unit  
SFKH120

Light and natural. Mya dispenses with anything superfluous. The sit-on washbasins are made of fine ceramic and recall days gone by. The matching vanity units are available in two widths.

Fresh and natural: the light-coloured version of Mya

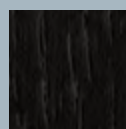

Refined and reserved: vanity combination in deep black

Sideboards and benches, shelves and accessories in a minimalist design. Mya blurs the boundaries between the bathroom and living area.

# Mya Accessoires

Familiar. Versatile. Timeless.

Just as open and simple as the vanity units from the Mya series: furniture and accessories that create a cosy atmosphere and form part of a burghad capsule collection. The special-edition products were developed in collaboration with international designers.

The Mya collection blends in with any area of the home. The floor-standing furniture is

made of solid oak with a natural or black finish. In addition to benches and sideboards, the collection also includes towel rails, metal boxes, a wooden tray, metal wall shelves and a stool made of recycled plastic called Viv.

**Furniture**  
Lowboard SGJL176

**Surfaces**  
Colour: Black oak No. F5220  
Drawers: Natural oak No. A0033

**Simply beautiful. Beautifully simple.** Consisting of rounded wooden rods, the minimalist structure of the frames gives Mya a sense of openness and

lightness, elegance and clarity. Both the light and dark variants preserve the natural texture of the oak.

Designed to be sustainable. For moving with its owners. From room to room. From apartment to apartment. Or from generation to generation. We give you Mya – and Viv.

**This way or that.** The VIV stool extends the Mya collection with a mobile and versatile plastic element that doubles as a seat and storage container. The stool can also be used in the shower.

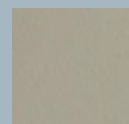

Viv is a stool and storage box in one. An optional solid wood lid is also available.

A0325

**Red**  
A0326

**Simple forms, variable functions.** The Mya furniture and accessories radiate a sense of warmth and naturalness. The subtly matched colours of the materials – wood, leather and metal – have been carefully tuned to one another. Thanks to the well thought through individual elements, Mya can be used in all sorts of ways.

**Elegant yet down-to-earth:** the combination of naturally tanned leather and oak gives the benches a very special aura. In addition to the light-coloured variants, they are also available with a dark frame.

Convex washbasin edges and concave long-line handles in all sorts of different colours – Orell plays sensitively with contrasts and represents classic values and merits.

# Orell

Contrasting and consistent

A sensitive interplay of shapes and colours: convex and concave, light and dark, natural wood effects, matt and high-gloss finishes, coloured back panels and long-line handles:

One striking feature of Orell is the concave long-line handle on the vanity cabinets.

The integrated and convenient recessed pull is used to open and close both the top and bottom pullouts. That results in an intriguing mix of appealing looks and well thought out functions.

**Furniture**

Mirror cabinet SPGI050  
Washbasin incl. vanity unit SETH058

**Surfaces**

Front: Merino oak decor No. F2777  
Washbasin: Mineral cast,  
White brilliant No. C0001

**Orell is a veritable magic set for creating bathrooms with a special flair.** Thanks to the different washbasin depths available (500 mm and 440 mm), this design line is ideal for smaller spaces and guest bathrooms as well.

Mineral cast washbasin incl. vanity unit  
SETH058

Mineral cast washbasin incl. vanity unit  
SETH093

The clear and linear shape of all the furniture elements is combined with curved long-line handles and washbasin contours to create an ensemble that's both captivating and soothing.

**Accentuation made easy.**

The attractive colour options for the long-line handles – from neutral white to various metallic shades – provide plenty of scope for creative bathroom design.

Natural wood effects, subtle or striking colour contrasts between the long-line handles and fronts: Orell provides a wealth of possibilities for staging your new bathroom attractively.

Mineral cast washbasin incl. vanity unit  
SETJ143

**Light and delightful prospects for your bathroom with Orell.**

The platinum-coloured back panels that echo the colour of the long-line handles emphasise the interplay of open and closed furniture surfaces.

Washbasin: Mineral cast,  
White brilliant No. C0001

Beautiful and practical, outside and in – thanks to the well thought out furniture interiors.

Striking: the convex and slightly projecting edge of the washbasin

Elegant: the curved lines of the mineral cast washbasins

**Glowing examples of Orell's charming approach to tidiness.**

The roomy tall and mid-height cabinets are also available with open shelving on the side. The mellow interior lighting emphasises the contrast between the furniture front and the coloured back panel.

**Furniture**

Bathroom furniture from the rc40 room concept that shares a connection: every washbasin and every module is a design experience in its own right.

# rc40 Solitaire

Upscale and poised

The clear lines of the furniture and washbasins in the rc40 Solitaire collection define a new sense of lightness in bathroom design, accentuated by the slenderness of the materials.

The design collection becomes one with the architecture and harmonises with a wide range of different styles.

The rc40 Solitaire furniture and modules are a perfect fit with any setting – from a modern new build all the way to a stylishly renovated older building.

If you're planning to renovate an existing bathroom, this collection offers a particularly interesting benefit: almost all the furniture elements in the rc40 Solitaire range can be custom-sized.

**Furniture**  
Mirror cabinet SPNC080  
Vanity unit WWKT080

**Surfaces**  
Front: Dark grey  
matt No. F4511

**Washbasin**  
Stone-washbasin

**Quality, design, craftsmanship.** With the rc40 Solitaire furniture and washbasins, you can see and feel the premium quality of the workmanship in every single detail, no matter how small. The choice of lacquered and real wood fronts is sensitively tuned to the understated

design language of the furniture while still leaving plenty of scope for individual preferences. What's more, both the mineral cast and glass washbasins can be produced in a wide range of different colours, allowing you to create additional colour accents.

Vanity unit SGBK160  
Front: White high gloss No. F4514

Vanity unit SGBK160  
Front: Light oak fineline No. 4606

Where does the bathroom end? And where does the living area start? With rc40 Solitaire the transitions are fluid, not just with regard to the way the rooms are laid out but in terms of the impact made by all the elements of this exclusive design series.

**One theme with lots of variations: the washbasins are produced in one seamless piece.** The vanity cabinets are perfectly matched to the basins. Their premium lacquered and real wood surfaces are very hardwearing and just need wiping over with a damp cloth.

Elegant vanity combination

Plenty of storage space, even for tall items

**Elegance. Clarity. Functionality.** Qualities that rc40 Solitaire expresses with a lightness you can see and feel. At just 12 mm thick, the slender ceramic of the vanity top echoes the fine and precise edges of the cabinet. The deep pullouts of the vanity unit and sideboard provide welcome extra storage space.

Now even responds to voice control  
to bathe your bathroom in the perfect light:  
the rl40 mirror cabinet.

Washbasins and bathroom furniture for a flawless, homogeneous look. With a shape inspired by a wave, Sinea 1.0 reflects the soothing effect of a gentle swell on the ocean.

# Sinea 1.0

Gentle and harmonious

Elegant curves, creative lightness, dynamism and energy: Sinea 1.0 owes its appeal to a design that looks both natural and flamboyant. Gently curved shapes for the individual bathroom of your dreams.

Sinea 1.0 traces a perfect wave— with washbasins and vanity cabinets that look dynamic

yet soothing. Soft, rounded shapes crop up in many of the details too, for instance on the mirrors or in the optional bow handles. Sinea's dynamism is ideal for the guest bathroom as well.

Sinea 2.0 is the consistent sequel to Sinea 1.0. The carcasses of the furniture are noticeably more slender and the basic wave motif has been extended with a counterwave.

# Sinea 2.0

Dynamic curves and a wide range of variants

Dynamic in form, Sinea 2.0 creates a soothing effect and radiates a sensuous appeal.

The series picks up on the wavy contours of Sinea 1.0 and adds new variations – like a counterwave on the vanity cabinets and mineral

cast washbasins, as well as additional vanity cabinets and furniture variants.

The wave-shaped recessed pull can be emphasised with an accent colour or given additional emphasis with integrated lighting.

**Furniture**

**Surfaces**

Front: White matt No. F2793

Washbasin: Mineral cast,  
White velvet No. C0037

**Long-line handle, wave and counterwave.**

The wave principle runs through virtually every element and level of the Sinea 2.0 furniture and washbasins, creating a harmonious overall effect that permits a wide variety of colour permutations.

Vivacious and practical: lots of storage space and a pleasantly roomy ledge on the vanity top.

Whether in a subtle or dramatic colour – Sinea 2.0 is a treat to look at and use.

**Refreshingly simple. Simply exceptional.**

Even if your guests are only in the bathroom for a short time, Sinea 2.0 will get their attention. They'll be lining up to wash their hands!

A delicate interplay of shape and colour.  
Angular meets round. Lacquer meets wood.  
Yso loves contrasts and is the essence of  
versatility.

# Yso

Versatile and pragmatic

Bright prospects for those who enjoy creating individual combinations: ceramic washbasins and vanity units in a variety of shapes and top-quality finishes. Plus matching furniture and accessories with all sorts of different functions.

Yso looks subtle yet strikingly elegant. The chrome-plated metal strips that edge the Yso cabinets, vanity units and shelves are more

than just decoration and a style-defining element; they also perform a practical function, for instance by doubling as a towel rail where they extend beyond the sides of the cabinets.

Yso's design is the work of Bielefeld-based firm nexus product design.

Consistent clarity in its most beautiful form. Sensitive forms for a cosy atmosphere. Yumo is the ideal option for sensuous bathroom experiences.

# Yumo

## Snug and soothing

Yumo combines transparent smoked glass elements with wood finishes, dark shades or high-contrast white. As a result, the atmosphere the series creates in the bathroom is as mellow as it is relaxing.

The beautifully designed mineral cast wash-basins with filigree edges and lowered ledges are a consistent combination of sophisticated

aesthetics and practical functions. The furniture and mirror cabinets echo the aesthetic of the vanity units.

Yumo transforms bathrooms of any size into feel-good spaces – thanks to warm, mellow colours, translucent surfaces and atmospheric lighting.

For more than five decades, burgbad has specialised in making beautiful and functional furniture for your bathroom. No matter how much space you allocate your new bathroom – at burgbad you'll find a huge selection of washbasins and furniture for equipping it just the way you picture it.

That includes mirrors and mirror cabinets, practical organiser systems and useful accessories too. And for all those who enjoy nothing more than bathing in style, our Lauterbach-Allmenrod facility produces mineral cast bathtubs that are a feast for the eyes and turn bathtime into a luxurious pleasure.

# Beyond furniture

Solutions that combine practicality with pleasure. Like atmospheric lighting that provides optimal illumination and lots of practical storage space.

# Mirror cabinets

An eye-catcher with special extras

With its "room light" concepts (rl40 and rl30), burgbad has set new standards for mirror cabinets with integrated lighting. And in addition to these high-end options, the burgbad portfolio also includes a wide variety of mirror

cabinets that will fit in perfectly with your new bathroom. From extra narrow all the way to XXL. Whatever mirror cabinet you choose, you can look forward to lots of useful functions.

**Glare-free light that functions flawlessly**

See better. Look better. Even narrow mirror cabinets provide ample storage space and light.

We look at ourselves in the mirror every day. And we're more likely to do it in the bathroom than anywhere else – which is why choosing a mirror for the bathroom calls for careful thought.

# Mirror

An eye-catcher with a function

Many of the sys20 design lines include mirrors that have been specially designed for the individual collection. In addition, however, burgbad also offers a select range of flat

and cosmetic mirrors that can be combined with all sorts of bathroom furniture however you like to suit your personal tastes.

Slip into the water. Switch off. Feel the warmth. A luxurious date with yourself: could anything be nicer than escaping everyday life with a relaxing bath ritual?

# Bath

A treat for body and soul

Mineral cast gives the burgbad tubs an irresistibly sumptuous feel that turns taking a bath into a special experience. All you

have to decide is where to put the tub so that your new-found oasis of tranquillity will be shown off in all its glory.

**Diva**  
The mineral cast bath is an enchanting blend of oval lines, slender forms and a graceful aesthetic.

SEAA204  
550x2040x1100 mm

MWAP180  
575x1800x850 mm

**Senza**

Relaxing all along the line. Like all the mineral cast bathtubs from burgbad, Senza is as beautiful to the touch as it is to look at.

**Crono built-in bath**

The form and function of this bath harmonise in a totally natural way; it can be sized to your exact specifications – anywhere from 1900 mm to 3000 mm.

MWAD190+SEVQ200  
574x1900x900 mm

**Badu**

This tub is made for all those who want to lean back in comfort – and enjoy a long, relaxing bath. Its ergonomic reclining position is patented.

MWHI200  
790x2000x900 mm

**Serenity and clarity. In the bathroom, for the bathroom.** The elegantly shaped bathtubs from burgbad are made to be seen, felt and used.

**Crono**

With its clear geometry and unobtrusive design, this bath is a perfect fit with the design series of the same name but looks just as stylish in combination with many of the other design lines from burgbad.

MWAN180,  
575x1800x800 mm

A place for everything and everything in its place. With burgbad, keeping order is easy – thanks to well-organised interiors, practical functions and useful accessories.

# Storage space

Goodbye clutter!

Cabinets with storage doors, a tilt-out laundry hamper, metal boxes, interchangeable dividers, shelf inserts – the organiser systems from burgbad help you keep all the items

you need in your bathroom neat and tidy. Big and small. Cosmetic utensils, care products, make-up brushes and toothbrushes – there's a perfect place for everything at your fingertips.

**Storage space plus large-format mirror**

Shallow wall cabinet with full-length mirror, e.g. from the Bel series: SPFY040

**Cabinets with practical functions**

One example of many: tall cabinet from the Essento series with tilt-out laundry hamper HSCM040

**All neat and tidy**

Organiser systems for pullouts, drawers and cabinets

Little things that make your bathroom even more beautiful and practical extras with a convenience bonus.

# Accessories

A passion for detail

When your new bathroom is finished, seeing the big picture for the first time is a special moment. Your dreams and ideas have taken shape. And with accessories from burghbad, you can make the moment even more uplifting

with beautiful little additions that you'll enjoy long afterwards – from little utensils like porcelain tumblers or bowls to shelves and racks in various sizes, all the way to towel rails and towel ladders.

**Stunning all round**

Accessories from the Lavo 2.0 series that harmonise with many dreams of a beautiful bathroom:

Mirror with metal ring ACFP030, 310x290x300 mm, hanging shelf with steel cable ACFN030, 1500x290x300 mm and tray with hand towel holder ACFQ030, 900x290x300 mm

Beautiful extras that make themselves useful. The premium accessories from burgbad are lovely to look at, create space and help keep the bathroom neat.

A scenic view of a lake with tall reeds in the foreground and a clear blue sky. The reeds are golden-brown and stand tall against the water. The lake is calm, reflecting the sky. In the distance, there are hills and a small town. The text "Sustainable thinking and action." is overlaid in white, serif font on the lower left side of the image.

Sustainable  
thinking and  
action.

## Environmental protection and conservation

The landscapes around burgbad's four production sites provide many good reasons for protecting the environment and nature to the best of our ability. Burgbad's roots are in Schmallenberg in the Sauerland region of Germany. That's where we produce our bathroom furniture, as well as in the little town of Grafenberg in the Franconian Jura, Germany, and in Nogent-le-Roi, a small French commune on the banks of the Eure river. We make the premium mineral cast washbasins and tubs for your bathroom in Lauterbach-Allmenrod in the Vogelsberg mountains.

**Emissions rating.** The label issued by the German Quality Assurance Association for Furniture (DGM) provides information about potential harmful emissions at a glance. Burgbad's entire furniture range has been awarded a Class A emissions rating. For your safety.

Förderung  
nachhaltiger  
Waldwirtschaft  
[www.pefc.org](http://www.pefc.org)

**PEFC certificate.** All our furniture has held PEFC chain of custody certification since 2014. The seal of approval is only awarded to companies who can provide end-to-end verification that the wood they process is sourced from sustainably managed forests.

**Innovation Award 2017.** This Germany-wide study by German magazines Focus and Focus Money was the first of its kind to investigate brands' innovativeness as perceived by consumers. Burgbad emerged as one of the most innovative companies in Germany.

## Bathroom furniture that's made to last

When it comes to furnishing a new bathroom, most people's first thought isn't how long their bathroom furniture will last. At burgbad, it is. We want you to enjoy your new bathroom furniture for as long as possible. Our products automatically come with a five-year guarantee. But that doesn't just mean making sure we use top-quality, tried and tested materials. We want the design to be sustainable too. Even after years of use, you should be able to look at your bathroom and say: "Our bathroom furniture is just as beautiful as ever."

### **Universal Design Expert.**

This award was presented to burgbad in 2017 for the Flex design series, which was created based on the principles of universal design and also won the German Design Award in 2018.

### **Furniture Made in Germany**

Burgbad is the first bathroom furniture manufacturer to be certified with this RAL label. All furniture collections from burgbad GmbH comply with the strict criteria for this quality seal from the German Institute for Quality Assurance and Certification (RAL). The label is a joint initiative by RAL and the Association of the German Furniture Industry (VDM).

## First climate-neutral bathroom furniture manufacturer

Burgbad sources its wood-based materials from sustainably managed forests. So far, so good – and easy enough to understand. But can furniture production truly be climate-neutral? The answer is yes – with the help of multilayered sustainability management and meaningful offset measures that are centrally governed. That’s why, in 2016, we joined the furniture industry’s climate pact, which was initiated by the German Quality Assurance Association for Furniture (DGM). Every year since, we have been complying with the DGM’s strict guidelines and became the first climate-neutral bathroom furniture manufacturer in 2016.

### Certified quality

The “Golden M” quality label is only awarded to furniture that completely satisfies all the requirements stipulated by the German Quality Assurance Association for Furniture (DGM) within the RAL quality assurance system. The strict test criteria are based on current quality, environmental and emissions standards.

**Climate-neutral furniture manufacturer.** Burgbad joined the “Climate Pact for the Furniture Industry” as a bathroom furniture manufacturer in 2016. We are working systematically to further reduce greenhouse gas emissions and offset unavoidable CO<sub>2</sub> emissions based on DGM guidelines.

### The DGM climate pact

The German Quality Assurance Association for Furniture (DGM) supports the UN goal of limiting global warming as a result of the greenhouse effect to 1.5 degrees Celsius. Burgbad has been a member of the DGM climate pact ever since it was initiated by and for the furniture industry.

Burgbad stands for excellent quality.  
Guaranteed.

**5-year guarantee** Your burgbad bathroom furniture comes with a five-year guarantee, starting from the date of invoice. Guarantee claims are conditional on proper installation by a qualified bathroom fitter in suitable solid walls.

The guarantee does not apply to ex-display items, furniture used in public or commercial settings, wearing parts or damage caused by violent means, incorrect treatment or incorrect installation. This does not affect your statutory rights. Please see the guarantee certificate for further information.
