A PASSION FOR LIGHTING DESIGN

Since 1872, Fritz Hansen has been crafting extraordinary design that transforms the everyday into something special. By continuously pushing the boundaries of design and craftsmanship we shape the world for those who wish to be inspired, intrigued and surprised.

Fritz Hansen has a passion for lighting. This passion for extraordinary lighting design drives us to create pendants, wall lamps, table lamps and floor lamps that make interior spaces come alive.

In this catalogue, you will find an array of lighting from extraordinary designers from around the world, produced with the high quality material and precise attention to detail that are synonymous with Fritz Hansen's name.

We hope you enjoy this catalogue. If you have any questions, our local sales representatives are at your service.

AQ01™ table lamp in Black on a Pluralis™ table paired with Oxford™ chairs.

AQ01™ FUNCTIONAL ELEGANCE

The AQ01™ offers a fresh take on the classic architect's desk light. Distinguished by its delicate lines and matt finish, the light offers a refined elegance and genius utility. Technology allows springs to be hidden within the design and AQ01's shade to be switched on and off, or dimmed up and down, with the touch of a hand on the lamp's shade.

CALABASH™ ORGANIC SIMPLICITY

The Calabash™ pendants designed by Komplot Design are inspired by the simple and harmonious form of the calabash pumpkin. Made of aluminum and finished with chrome or textured coating, the pendants balance form and function, and technology with craftsmanship. Turned on or left off, the distinct design has strong presence by combining convex and concave shapes – mirroring the room in Silver or Gold, and standing strong in Black Meteor or Grey Meteor with a confident, sculptural quality.

Caravaggio™ Matt pendant (P3) in White together with a Superellipse™ table and Drop™ chairs.

CARAVAGGIO™ TIMELESS SILHOUETTE

The simple, timeless Caravaggio™ pendant by Cecilie Manz consists of a metal shade with soft, feminine lines held by a metal suspension. The textile cable is particularly well integrated into the design and gives the lamp its finishing touch. The lamp casts a concentrated, downward light whilst also illuminating both the suspension and the cable through a hole at the top of the lamp. The shade is designed to prevent glare and provide beautiful, well balanced light.

CLAM™ A PEARL OF LIGHT

Mouth-blown opal glass and brushed brass come together – and move apart – to create elegant, adjustable and atmospheric lighting for dining and living spaces. Equally elegant open as it is closed, the perfectly balanced design elevates any room with its considered combination of form and ambience.

KAISER idell™ FOREVER MODERN

All KAISER idell™ lighting is characterised by Christian Dell's ability to create elegant design with the basic hallmarks of Modernism: geometric shapes. The entire lighting design series, while diverse in its expressions, is united by its Bauhaus origin, timelessness and clever details.

KAISER idell™ floor lamp (6580-F Luxus) in Matt Black next to a Lissoni Sofa™.

KAISER idell™ table lamp (6631-T Luxus) in Black.

What's in a name? The term "idell" is a portmanteau of "idea" and "Dell" - the designer's last name. While "Kaiser" references the original manufacturer.

From 1922 to 1925, Christian Dell worked as a foreman of the metal workshop at the Bauhaus in Weimar where he developed a highly innovative and pioneering style of design. In 1926, Dell began sketching lamps. His first catalogue was launched in 1936, and the table

lamp model 6631-T Luxus appeared for the first time, becoming the undisputed top model of the KAISER idell™ series. Ever since, it has been considered a symbol of Germanic design, exquisite choice of materials, and precise engineering.

Orient™ pendant in Aluminum and Oak.

ORIENT™ LUXURY LIVES ON

The Orient™ pendant was created by Jo Hammerborg in 1963 and relaunched by Fritz Hansen in 2013. The fitting elegantly conceals a low energy light source and ensures a soft, pleasant light without any glare. The shade is hand spun in a wooden mould, a feature that underlines the original, organic shape and true craftsmanship of this beautiful pendant design.

PM-02 table lamp in Brass.

PM-02 ELEGANT ILLUMINATION

The PM-02 table lamp by legendary American designer Paul McCobb emits diffused light from hand-blown, opal glass to create a warm, atmospheric glow.

SUSPENCE™ SUSPENDED IN AIR

In the making of the Suspence™ lamp series, the designers GamFratesi sought to translate movement into a physical shape: a water droplet suspended in air. The final form appears as an uninterrupted whole, enhanced by its monochrome expression and natural, soft curve. An infinity diffuser at the base of the lamp concentrates the light, prevents glare, and creates an elegant optical illusion.

SUSPENCE™

Design: GamFratesi, 2013

In the making of the Suspence™ lamp series, the designers sought to translate movement into a physical shape: a water droplet suspended in air. The final form appears as an uninterrupted whole, enhanced by its monochrome expression and natural soft curve.
